Now more than ever, we need to teach the truth about history. This volume assembles a team of critical social studies Scholars of Color and co-conspirators who share both their nightmares and dreams for the future. The authors engage critical race

theory (CRT) and its many branches and offshoots to better understand the permanence of racism in the teaching of social studies. The book's first section, *A Dream Deferred*, outlines the endemic systemic issues and the ways in which the field and national organizations attempt to remain racially neutral in the face of the biases that permeate curriculum, disciplines, and the world. The second section, *Racial Realities in Classroom Spaces*, examines the various ways scholars and educators are applying CRT in PreK-12 spaces. In the third section, *Possibilities of Praxis*, chapter authors critically reflect on their own experiences and stories using CRT

to work with young people and future teachers. In the final section, *Dreaming of Social Studies Futures*, contributors outline their dreams for the future of social studies, envisioning an unapologetically Indigenous field that centers Black futures and liberation and is free from the violence that has plagued the field and communities for centuries. **Book Features:** Offers race-focused analyses from a wide range of perspectives and contexts of study related to social studies education. Highlights innovations, branches, and future directions of critical race theories and methods. Explores how race and racism have been situated within the field of

social studies since the publication of Gloria Ladson-Billings's 2003 edited volume, *Critical Race Theory Perspectives on the Social Studies*.

Contributors include Sohyun An, Christopher Busey, Tiffany Mitchell Patterson, Leilani Sabzalian, Sarah B. Shear, Tran Templeton, and Jon Wargo.

 Poker looks like such a simple game. Anyone, it seems, can play it well – but that's far from the truth. Learning the rules can be quick work, but becoming a winning player takes considerably longer. Still, anyone willing to make the effort can become a good player. You can succeed in poker the way you succeed in life: by facing it squarely,

getting up earlier than the next person, and working harder and smarter than the competition. Foreword by Chris Moneymaker, 2003 World Series of Poker Champion.

The Prize recounts the panoramic history of oil -- and the struggle for wealth power that has always surrounded oil. This struggle has shaken the world economy, dictated the outcome of wars, and transformed the destiny of men and nations. The Prize is as much a history of the twentieth century as of the oil industry itself.

The canvas of this history is enormous -- from the drilling of the first well in Pennsylvania through two great world wars to the Iraqi invasion of Kuwait and Operation Desert Storm. The cast extends from wildcatters and rogues to oil tycoons, and from Winston Churchill and Ibn Saud to George Bush and Saddam Hussein. The definitive work on the subject of oil and a major contribution to understanding our century, The Prize is a book of extraordinary breadth, riveting excitement -- and great importance.
