Tenochtitlan 1519-21 Bantam

Newbery Award-winning and New York Times bestselling author Matt de la Peña's *Mexican WhiteBoy* is a story of friendship, acceptance, and the struggle to find your identity in a world of definitions. Danny is tall and skinny. Even though he's not built, his arms are long enough to give his pitch a power so fierce any college scout would sign him on the spot. Ninety-five mile an hour fastball, but the boy's not even on a team. Every time he gets up on the

mound, he loses it. But at his private school, they don't expect much else from him. Danny is brown. Half-Mexican brown. And growing up in San Diego that close to the border means everyone else knows exactly who he is before he even opens his mouth. Before they find out he can't speak Spanish, and before they realize his mom has blond hair and blue eyes, they've got him pegged. But it works the other way too. And Danny's convinced it's his whiteness that sent his father back to Mexico. That's why he's spending the summer with his dad's family. But to find

himself, he may just have to face the demons he refuses to see--the demons that are right in front of his face. And open up to a friendship he never saw coming. Matt de la Peña's critically acclaimed novel is an intimate and moving story that offers hope to those who least expect it. "[A] first-rate exploration of self-identity." --SLJ "Unique in its gritty realism and honest portrayal of the complexities of life for inner-city teens...de la Peña poignantly conveys the message that, despite obstacles, you must believe in yourself and shape your own future." --The Horn Book Magazine "The baseball scenes...sizzle like Danny's fastball. Danny's struggle to find his place will speak strongly to all teens, but especially to those of mixed race." --Booklist "De la Peña blends sports and street together in a satisfying search for personal identity." -Kirkus Reviews "Mexican WhiteBoy...shows that no matter what obstacles you face, you can still reach your dreams with a positive attitude. This is more than a book about a baseball player--this is a book about life." --Curtis Granderson, New York Mets outfielder An ALA-YALSA Top Ten Best Book for Young

In exploring the pattern and methods of Aztec expansion, Ross Hassig focuses on political and economic factors. Because they lacked numerical superiority, faced logistical problems presented by the terrain, and competed with agriculture for manpower, the Aztecs relied as much on threats and the image of power as on military might to subdue enemies and hold them in their orbit. Hassig describes the role of war in the everyday life of the capital, Tenochtitlan: the place of the military in Aztec society; the education and training of young warriors; the organization of the army; the use of weapons and armor; and the nature of combat.

Adventurous explorer or ruthless imperialist? In 1519, Spanish conquistador Hernán Cortés led a daring expedition to the heart of the Aztec Empire, in what is now central and southern Mexico. Within two years, this highly advanced civilization had fallen to the might of Cortés's Spanish conquerors, resulting in the

deaths of tens of thousands of Aztecs. This engaging title explores two cultures in conflict and the personality of a man driven by both insatiable greed and service to his country.

withstand the Aztec arms. If the imperial city demanded tribute it must be promptly given, though nakedness and hunger should result. If its priests demanded victims for their blood-stained altars, these must be yielded without a murmur, that the lives of whole tribes might not be sacrificed. Only one little mountain republic still held out, and defied the armies of the Aztec king, but of it we shall learn more hereafter...FROM THE BOOKS.

From the Gold Rush to rush hour, the history of the American West is fraught with diverse, subversive, and at times downright eccentric elements. This provocative volume challenges traditional

readings of western history and literature, and redraws the boundaries of the American West with absorbing essays ranging widely on topics from tourism to immigration, from environmental battles to interethnic relations, and from law to film. Taken together, the essays reassess the contributions of a diverse and multicultural America to the West, as they link western issues to global frontiers. Featuring the latest work by some of the best new writers both inside and outside academia, the original essays in *Over the Edge* confront the traditional field of western American studies with a series of radical, speculative, and sometimes outrageous challenges. The collection reads the West through *Ben-Hur* and the films of Mae West; revises the western American literary canon to include the works of African American and Mexican American writers; examines the implications of miscegenation law and American Indian blood quantum requirements; and brings attention to the historical participation of Mexican and Japanese American women, Native American slaves, and Alaskan cannery workers in community life.

In *Daily Life of the Aztecs*, Frances Berdan and Michael E. Smith offer a view into the lives of real people, doing very human things, in the unique cultural world of Aztec central Mexico. The first section focuses on people from an array of social classes - the emperor, a priest, a feather worker, a merchant, a farmer, and a slave

- who interacted in the economic, social and religious realms of the Aztec world. In the second section, the authors examine four important life events where the lives of these and others intersected: the birth

and naming of a child, market day, a day at court, and a battle. Through the microscopic views of individual types of lives, and interweaving of those lives into the broader Aztec world, Berdan and

Smith recreate everyday life in the final years of the Aztec Empire.
