“Who likes sudden death?” that's the only question he used to ask before killing his prey. Random people are being abducted from the capital city, Delhi and are being killed mercilessly. Before killing, the murderer is reciting them a story, a story about a 9 year old child who saw the brutal side of the world at a very young age. All the stories are being recorded for the police Department to see. Raunak Upadhyay, the police Inspector who is handling the case, links the style of serial killing to the case he solved years ago. But the murderer of that case is in jail then who is following the footsteps? Does the murderer want to convey something? Whose story is being recited? Why the murderer is taking personal interest in Raunak? Is there any other side of this Coin or both the faces are just the same? Welcome to the brutal world!

This early work by Ernest Bramah was originally published in

1914 and we are now republishing it with a brand new introduction. 'The Coin of Dionysius' is a mystery short story of a coin and a blind man. Ernest Bramah Smith was born near Manchester in 1868. He was a poor student, and dropped out of the Manchester Grammar School when sixteen years old to go into the farming business. Bramah found commercial and critical success with his first novel, *The Wallet of Kai Lung*, but it was his later stories of detective Max Carrados that assured him lasting fame.

Found by a young boy and placed into his pocket for safekeeping, Penny feels useless compared to the exciting Superball, the shiny Marble, the adventuresome Rock, and the colorful Bubblegum. But as she reminisces about her life and history, she realizes her worth, and it is reinforced by the young boy's need for her in an important decision. Denise Brennan-Nelson's boundless energy and enthusiasm comes from her days as a motivational speaker. Since the publication of her first book, *Buzzy the Bumblebee* in 1999, Denise has taken that enthusiasm into schools and inspired thousands of children to "bee-lieve" in themselves. Her second

title, *My Momma Likes to Say*, shares her interest in and knowledge of clichés, idioms, and funny expressions used by adults and often misunderstood by the children who hear them. Award-winning wildlife artist Michael Glenn Monroe is also known for his charming character illustrations in such titles as *Buzzy the Bumblebee*, *A Wish to be a Christmas Tree* (read aloud on the Today Show in 2002 by Katie Couric), and *The Christmas Humbugs*. He brings this lively brand of illustration to the adventures of Penny.

Bestselling author Marisa Silver takes Dorothea Lange's Migrant Mother photograph as inspiration for a story of two women—one famous and one forgotten—and their remarkable chance encounter. In 1936, a young mother resting by the side of the road in central California is spontaneously photographed by a woman documenting migrant laborers in search of work. Few personal details are exchanged and neither woman has any way of knowing that they have produced one of the most iconic images of the Great Depression. In present day, Walker Dodge, a professor of cultural history, stumbles upon a family secret embedded in the now-famous picture. In luminous prose, Silver creates an extraordinary tale from a brief event in history and its repercussions throughout the decades that follow—a reminder that a great photograph captures the essence of a moment yet only scratches the surface of a life.

Alex Sanders, founder of the Alexandrian tradition of Witchcraft and known to many as "King of the Witches," lived a life of mythic proportions. Rising out of virtual obscurity to become one of the most charismatic and controversial figures of modern Wicca, Alex was many things to many people. A teacher, friend, father, husband. In short, a man like any other man. And yet his was a life lived without compromise. His personal vision of Witchcraft and his tireless love for the Goddess would influence thousands of seekers who would come after and inspire a new generation toward the Inner Mysteries. But Alex's saintly side was as grand as his demonic side. He could inspire hate as easily as love. Never one to shy away from the spotlight, Alex was ever the showman. He cared little for the opinion of others and kept true to his own ideal despite the consequences. His was a life well lived, but like any other life, was built of extremes - light, dark, joy, and despair. For the first time ever, Jimahl di Fiosa tells the true story of Alex Sanders - neither demon nor saint - but somewhere in between the two.

The Adventures of Lucky Cent iUniverse

Before anyone knew "El Chapo", everyone knew Pablo Escobar. He was the King of Cocaine, the wealthiest and most violent criminal in the world. By the 1980s his Medellin Drug Cartel was responsible for smuggling several tons of cocaine into America each and every day, killing thousands of people along the way. The end result was hundreds of millions of dollars in cash profits. In response, and as part of President Reagan's War on Drugs, Congress created the Money Laundering Act of 1986. The goal was to take the profit out of Escobar's business. And the plan was working. Drug Money seizures went up. But as U.S. Agents became more and more efficient at finding the dirty cash, stashed inside ship bellies and truck beds at America's ports and land borders, Pablo and other Cartel leaders sought a more efficient method to get their money back to Colombia. They found the solution in an unlikely place, a dusty back room of a tiny, rare coin shop in the small town of Cranston, Rhode Island. The shop owner was a young, local mobster who had already been laundering much of the Mob's stolen gold. With a few minor adjustments, his coin shop evolved into a springboard for a new venture, a billion dollar money laundering scheme. The Italian Mafia's stolen gold was used to dispose of the Colombian Cartel's dirty cash. It was the perfect scheme, brilliant. As his customer base grew, the young mobster, known as Fat Man, a.k.a. Mr. Cash, set up a string of phony gold shops crisscrossing America. The end result was one of the world's largest, most efficient

money laundering networks. By some accounts, Fat Man laundered more than a billion dollars of drug profits for Pablo Escobar and the other Cartel leaders. This is the true story of how it all happened. It is a step-by-step view of how the scheme worked and how it was ultimately uncovered. This story reveals conventional and at times unconventional tactics used by the government in its three-year, worldwide investigation. It is also a behind-the-scenes look at Fat Man himself and his crew, as well as the agents and cops who pursued them. It was unlikely that Fat Man, a small town gangster, would ever become an international money launderer for the Colombian Drug Lords. But what was more unlikely was the fact that it took a rookie agent to finally uncover the scheme. And more unlikely than that was the fact that the rookie agent was Fat Man's neighbor. Both were born within just a few days from each other, grew up just a few miles from each other, lived in similar blue-collar neighborhoods and even lived in all but identical homes. And both were influenced, in very different ways, by the New England Mob, which was headquartered nearby on Federal Hill in Providence, RI. While Fat Man relished a life of crime, I dreamed of becoming an agent. In 1987, while his scheme originally went unnoticed, I was at the Federal Law Enforcement Training Academy in southern Georgia. One year after the new Money Laundering Law was created, I began work as a new U.S. Treasury Agent. My first post of duty was Providence, RI. My first assignment was to follow a lead, a suspicious cash deposit at a local bank. It was originally considered to be a dead end, "keep busy" work for a new, inexperienced agent with little to do. But that changed when I followed the lead to Fat Man's Coin Store. This is how it all happened.
