Games for the Soul Anchor

2013 Laura Ingalls Wilder Award Rosa's mother is singing again, for the first time since Papa died in an accident in the mills. But instead of filling their cramped tenement apartment with Italian lullabies, Mamma is out on the streets singing union songs, and Rosa is terrified that her mother and older sister, Anna, are endangering their lives by marching against the corrupt mill owners. After all, didn't Miss Finch tell the class that the strikers are nothing but rabble-rousers—an uneducated, violent mob? Suppose Mamma and Anna are jailed or, worse, killed? What will happen to Rosa and little Ricci? When Rosa is sent to Vermont with other children to live with strangers until the strike is over, she fears she will never see her family again. Then, on the train, a boy begs her to pretend that he is her brother. Alone and far from home, she agrees to protect him . . . even though she suspects that he is hiding some terrible secret. From a beloved, award-winning author, here is a moving story based on real events surrounding an infamous 1912 strike.

The Book of Secrets Simon and Schuster

The Book of Dreams by Tim Severin is the exciting first book in Saxon, the historical adventure series full of epic battles and captivating characters. A haunting premonition . . . A deadly betrayal. Frankia 780AD: Sigwulf, a minor Saxon prince, is saved from execution after his family is slaughtered by the ruthless King Offa of Mercia. Sigwulf is exiled to the Frankish court of King Carolus, the future Charlemagne. He gains the friendship of some - Count Hroudland, Carolus's powerful and ambitious nephew but - mysteriously - several attempts are made on Sigwulf's life. When he obtains a Book of Dreams, a rare text giving understanding to their meaning, he attracts the attention of Carolus himself. But the Book proves to be a slippery guide in a world of treachery and double dealing. Sent into Spain to spy on the Saracens, Sigwulf becomes caught between loyalties; either he honours his debt to new friends among the Saracens, or he serves his patron Count Hroudland in his quest for glory, gold and even the Grail itself . . .

A Return to Innocence Simon and Schuster

From the award-winning author of The Palace of the Snow Queen comes a novel about love and independence in 19th century Denmark. Inspired by the relationship between the composer Carl Nielsen and the artist and ethnographer Emilie Demant Hatt, Fossil Island tells the story of two sisters: Nik is a fourteen-year-old tomboy who spends her time fossilizing on the nearby island of Fur. Her older sister Maj is studying to be a teacher, along with her best friend, the fiery Eva Sandstrom. During the summer of 1887, their Aunt Marie introduces into the family a handsome young musician of twenty-two. Flirtation turns to a secret romance between Nik and Carl, as Maj weighs an engagement over her intense friendship with Eva. The following year in Copenhagen brings the sisters' lives to the crisis point as they juggle passion, jealousy, and violent events. Fossil Island is the first of two novels about Nik and Maj: its sequel, The Former World, continues their

story."

40 Playful Ways to Find Fun and Fulfillment in a Stressful World Harper Collins

The story begins in Jerusalem in 70 AD as Abraham the Temple scribe flees the destruction of his home. Two thousand years and a hundred generations later, another Abraham perishes, immolated in the fires of the Warsaw Ghetto.

In this epic and haunting love story set on the Oregon Trail, a family and their unlikely protector find their way through peril, uncertainty, and loss. The Overland Trail, 1853: Naomi May never expected to be widowed at twenty. Eager to leave her grief behind, she sets off with her family for a life out West. On the trail, she forms an instant connection with John Lowry, a half-Pawnee man straddling two worlds and a stranger in both. But life in a wagon train is fraught with hardship, fear, and death. Even as John and Naomi are drawn to each other, the trials of the journey and their disparate pasts work to keep them apart. John's heritage gains them safe passage through hostile territory only to come between them as they seek to build a life together. When a horrific tragedy strikes, decimating Naomi's family and separating her from John, the promises they made are all they have left. Ripped apart, they can't turn back, they can't go on, and they can't let go. Both will have to make terrible sacrifices to find each other, save each other, and eventually...make peace with who they are.

Book of Colours BRILL

Beyond Vision is the first English-language collection of essays on art by Pavel Florensky (1882-1937), Russian philosopher, priest, linguist, scientist, mathematician - and art historian. In addition to seven essays by Florensky, the book includes a biographical introduction and an

examination of Florensky's contribution as an art historian by Nicoletta Misler. *Beyond Vision* reveals Florensky's fundamental attitudes to the vital questions of construction, composition, chronology, function and destination in the fields of painting, sculpture and design. His reputation as a theologian and philosopher is already established in the English-speaking world, but this first collection in English of his art essays (translated by Wendy Salmond) will be a revelation to those in the field. Pavel Florensky was a true polymath: trained in mathematics and philosophy at Moscow University, he rejected a scholarship in advanced mathematics in order to study theology at the Moscow Theological Academy. He was also an expert linguist, scientist and art historian. A victim of the Soviet government's animosity towards religion, he was condemned to a Siberian labor camp in 1933 where he continued his work under increasingly difficult circumstances. He was executed in 1937.

Note: The ebook of this graphic edition combines a hand-lettered font with richly detailed images. Due to the nature of the design, readers will be required to zoom in on each page. For the best experience, please use a larger, full-color screen. NEW YORK TIMES BESTSELLER • A graphic edition of historian Timothy Snyder's bestselling book of lessons for surviving and resisting America's arc toward authoritarianism, featuring the visual storytelling talents of renowned illustrator Nora Krug "Nora Krug has visualized and rendered some of the most valuable lessons of the twentieth century, which will serve all citizens as we shape the future."—Shepard Fairey, artist and activist Timothy Snyder's New York Times bestseller *On Tyranny* uses the darkest moments in twentieth-century history, from Nazism to Communism, to teach twenty lessons on resisting modern-day authoritarianism. Among the twenty include a warning to be aware of how symbols used today could affect tomorrow ("4: Take responsibility for the face of the world"), an urgent reminder to research everything for yourself and to the fullest extent ("11: Investigate"), a point to use personalized and individualized speech rather than clichéd phrases for the sake of mass appeal ("9: Be kind to our language"), and more. In this graphic edition, Nora Krug draws from her highly inventive art style in *Belonging*—at once a graphic memoir, collage-style scrapbook, historical narrative, and trove of memories—to breathe new life, color, and power into Snyder's riveting historical references, turning a quick-read pocket guide of lessons into a visually striking rumination. In a time of great uncertainty and instability, this edition of *On Tyranny* emphasizes the importance of being active, conscious, and deliberate participants in resistance.

Good and Cheap Reaktion Books

The explosive story of America's secret post-WWII science programs, from the author of the New

York Times bestseller *Area 51* In the chaos following World War II, the U.S. government faced many difficult decisions, including what to do with the Third Reich's scientific minds. These were the brains behind the Nazis' once-indomitable war machine. So began Operation Paperclip, a decades-long, covert project to bring Hitler's scientists and their families to the United States. Many of these men were accused of war crimes, and others had stood trial at Nuremberg; one was convicted of mass murder and slavery. They were also directly responsible for major advances in rocketry, medical treatments, and the U.S. space program. Was Operation Paperclip a moral outrage, or did it help America win the Cold War? Drawing on exclusive interviews with dozens of Paperclip family members, colleagues, and interrogators, and with access to German archival documents (including previously unseen papers made available by direct descendants of the Third Reich's ranking members), files obtained through the Freedom of Information Act, and dossiers discovered in government archives and at Harvard University, Annie Jacobsen follows more than a dozen German scientists through their postwar lives and into a startling, complex, nefarious, and jealously guarded government secret of the twentieth century. In this definitive, controversial look at one of America's most strategic, and disturbing, government programs, Jacobsen shows just how dark government can get in the name of national security.

Secrets of the Cube Scholastic Inc.

In this remarkable book, William Buhlman, author of the bestselling *Adventures Beyond the Body*, offers the reader a comprehensive guidebook to understanding and exploring the fascinating phenomenon of out-of-body experiences (OBEs). Learn how you can: Explore your true spiritual self and attain profound transformation in your awareness and knowledge of the universe. Gain life-changing benefits as you break free from mental and physical limitations Contact departed loved ones using OBEs to move beyond the current limited understanding of death. Filled with engrossing stories based on the testimonies of people from all over the world, and offering forty new, easy-to-understand techniques, *The Secret of the Soul* will prepare human beings everywhere for the next major leap in the evolution of consciousness.

Cube Pan Macmillan

This timely and hugely practical work provides a score of examples from contemporary and historical scientific presentations to show clearly what makes an oral presentation effective. It considers presentations made to persuade an audience to adopt some course of action (such as funding a proposal) as well as presentations made to communicate information, and it considers these from four perspectives: speech, structure, visual aids, and delivery. It also discusses computer-based projections and slide shows as well as overhead projections. In particular, it looks at ways of organizing graphics and text in projected images and of using layout and design to present the information efficiently and effectively.

The Secret Intelligence Program that Brought Nazi Scientists to America Little, Brown

Describes an ancient visualization game that provides insight into the understanding of the self and relationships

Fossil Island Scholastic Inc.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land

him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

[The 19th ICMI Study](#) Harper Collins

This book presents a collection of papers from the fifth conference of the Enoch Seminar. The conference re-examined 2 Enoch, an early Jewish apocalyptic text previously known to scholars only in its Slavonic translation, in light of recently identified Coptic fragments.

The Invisible Landscape Harper Collins

A thoroughly revised edition of the much-sought-after early work by Terence and Dennis McKenna that looks at shamanism, altered states of consciousness, and the organic unity of the King Wen sequence of the I Ching.

Mind, Hallucinogens, and the I Ching Richard Dennis Publications Di

Left suddenly penniless, the Honorable Sophia Grafton, a viscount's orphaned daughter, sails to the

New World to claim the only property left to her name: a tobacco plantation in the remote wilds of colonial Virginia. Enlisting the reluctant assistance of a handsome young French spy--at gunpoint--she gathers an unlikely group of escaped slaves and indentured servants, each seeking their own safe haven in the untamed New World. What follows will test her courage and that of her companions as they struggle to survive a journey deep into a hostile wilderness and eventually forge a community of homesteads and deep bonds that will unite them for generations. The first installment in an epic historical trilogy by Helen Bryan, the bestselling author of *War Brides* and *The Sisterhood*, *The Valley* is a sweeping, unforgettable tale of hardship, tenacity, love, and heartache.

[A Novel](#) Simon and Schuster

A monumentally devastating plague leaves only a few survivors who, while experiencing dreams of a battle between good and evil, move toward an actual confrontation as they migrate to Boulder, Colorado.

Camelot's Queen Harper Collins

Other Voices, Other Lives is a selection of poems, plays, and interviews drawn from over 40 years of work by one of America's most beloved and influential women of letters. Grace Cavalieri writes of women's lives, loves, and work in a multitude of voices. The book also includes interview excerpts from her public radio series, *The Poet & the Poem*. Her incisive interviews with Robert Pinsky, Lucille Clifton, and Josephine Jacobsen offer profound insights into the writing life.
