Gary Jennings's Aztec is the extraordinary story of the last and greatest native civilization of North America. Told in the words of one of the most robust and memorable characters in modern fiction, Mixtli-Dark Cloud, Aztec reveals the very depths of Aztec civilization from the peak and feather-banner splendor of the Aztec Capital of Tenochtitlan to the arrival of Hernán Cortás and his conquistadores, and their destruction of the Aztec empire. The story of Mixtli is the story of the Aztecs themselves---a compelling, epic tale of heroic dignity and a colossal civilization's rise and fall. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Wicked History of the World Handbook to Life

A massive fantasy omnibus containing all three novels in the Obsidian and Blood series: SERVANT OF THE UNDERWORLD Year One-Knife, Tenochtitlan - the capital of the Aztecs. The end of the world is kept at bay only by the magic of human sacrifice. A priestess disappears from an empty room drenched in blood. Acatl, high priest, must find her, or break the boundaries between the worlds of the living and the dead. HARBINGER OF THE STORM The year is Two House and the Mexica Empire teeters on the brink of

destruction, lying vulnerable to the flesh-eating star-demons - and to the return of their creator, a malevolent goddess only held in check by the Protector God's power. The council is convening to choose a new emperor, but when a councilman is found dead, only Acatl, High Priest of the Dead, can solve the mystery. MASTER OF THE HOUSE OF DARTS The year is Three Rabbit, and the storm is coming... The coronation war for the new Emperor has just ended in a failure, the armies retreating with a mere forty prisoners of war - not near enough sacrifices to ensure the favor of the gods. When one of those prisoners of war dies of a magical illness, ACATL, High Priest for the Dead, is summoned to investigate. "File Under" Fantasy Magical Murder - Aztec Mystery - Human Sacrifice - The Gods Walk ]"

*Obsidian and Blood* A & C Black

This introduction to the imaginative world of the Mexica (or Aztec) explores sacrifice in the richly textured life of 16th-century Mexico. Kay Almere Read describes a universe in which every object was timed by a given lifespan and in which sacrifice was the mechanism by which time functioned. This book makes a convincing case for what sacrifice meant religiously and for how it came to be that human sacrifice of staggering proportions could be accepted, matter-of-factly, by the Mexica people.

"Splendid" —New York Times "Mind-bending." —Wall Street Journal

"Brilliantly original. The best new novel I've read this year." —Salman Rushdie A daring, kaleidoscopic novel about the clash of empires and ideas, told through a tennis match in the sixteenth century between the radical Italian artist Caravaggio and the Spanish poet Francisco de Quevedo, played with a ball made from the hair of the beheaded Anne Boleyn. The poet and the artist

battle it out in Rome before a crowd that includes Galileo, a Mary Magdalene, and a generation of popes who would throw the world into flames. In England, Thomas Cromwell and Henry VIII execute Anne Boleyn, and her crafty executioner transforms her legendary locks into those most-sought-after tennis balls. Across the ocean in Mexico, the last Aztec emperors play their own games, as the conquistador Hernán Cortés and his Mayan translator and lover, La Malinche, scheme and conquer, fight and f\*\*k, not knowing that their domestic comedy will change the course of history. In a remote Mexican colony a bishop reads Thomas More's Utopia and thinks that it's a manual instead of a parody. And in today's New York City, a man searches for answers to impossible questions, for a book that is both an archive and an oracle. Álvaro Enrigue's mind-bending story features assassinations and executions, hallucinogenic mushrooms, bawdy criminals, carnal liaisons and papal schemes, artistic and religious revolutions, love and war. A blazingly original voice and a postmodern visionary, Enrigue tells the grand adventure of the dawn of the modern era, breaking down traditions and upending expectations, in this bold, powerful gut-punch of a novel. Game, set, match. "Sudden Death is the best kind of puzzle, its elements so esoteric and wildly funny that readers will race through the book, wondering how Álvaro Enrigue will be able to pull a novel out of such an astonishing ball of string. But Enrigue absolutely does; and with brilliance and clarity and emotional warmth all the more powerful for its surreptitiousness." —Lauren Groff, New York Times-bestselling author of Fates and Furies "Engrossing... rich with Latin

and European history." —The New Yorker "[A] bawdy, often profane, sprawling, ambitious book that is as engaging as it is challenging." —Vogue

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The*

New Yorker "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

In Daily Life of the Aztecs, Frances Berdan and Michael E. Smith offer a view into the lives of real people, doing very human things, in the unique cultural world of Aztec central Mexico. The first section focuses on people from an array of social classes - the emperor, a priest, a feather worker, a merchant, a farmer, and a slave - who interacted in the economic, social and religious realms of the Aztec world. In the second section,

the authors examine four important life events where the lives of these and others intersected: the birth and naming of a child, market day, a day at court, and a battle. Through the microscopic views of individual types of lives, and interweaving of those lives into the broader Aztec world, Berdan and Smith recreate everyday life in the final years of the Aztec Empire.
