In 1969 Vine Deloria, Jr., in his controversial book *Custer Died for Your Sins*, criticized the anthropological community for its impersonal dissection of living Native American cultures. Twenty-five years later, anthropologists have become more sensitive to Native American concerns, and Indian people have become more active in fighting for accurate representations of their cultures. In this collection of essays, Indian and non-Indian scholars examine how the relationship between anthropology and Indians has changed over that quarter-century and show how controversial this issue remains. Practitioners of cultural anthropology, archaeology, education, and history provide multiple lenses through which to view how Deloria's message has been interpreted or misinterpreted. Among the contributions are comments on Deloria's criticisms, thoughts on the reburial issue, and views on the ethnographic study of specific peoples. A final contribution by Deloria himself puts the issue of anthropologist/Indian interaction in the context of the century's end. A gorgeous compendium of Joni Mitchell's handwritten lyrics and drawings, originally handcrafted as a gift for a select group of friends in 1971 and now available to the public for the first time. In 1971, as her album *Blue* topped charts around the world, Joni Mitchell crafted one hundred copies of *Morning Glory on the Vine* as a holiday gift for her closest friends. For this stunningly beautiful book, Joni hand-wrote an exquisite selection of her own lyrics and poems and illustrated them with more than thirty of her original pictures. Handcrafted, signed, and numbered in Los Angeles, the existing copies of this labor of love have rarely been seen in the past half-century. Now, during Joni's seventy-fifth birthday year, *Morning Glory on the Vine: Early Songs and Drawings* will be widely available for the first time. In this faithfully reproduced edition, Joni's best-loved lyrics and poems spill across the pages in her own elegant script. The lively, full-color drawings depict a superb array of landscapes, still lifes, portraits of friends, self-portraits, innovative abstractions, and more. All the artwork from the original book is included, along with several additional pictures that Joni drew of her friends from the same period. Finally, the refreshed volume features an original introduction written by Joni. *Morning Glory on the Vine* is a gorgeous and intimate keepsake and an invitation to explore anew the dazzling, visionary world of Joni Mitchell.

In this "captivating saga" of the post-Reconstruction era, a black female journalist blazes her own trail—"unforgettable; gripping; an instant classic" (Elle). Ivoe Williams, the precocious daughter of a Muslim cook and a metalsmith from central-east Texas, discovers a lifelong obsession with journalism when she steals a newspaper from her mother's white employer. Living in the segregated quarter of Little Tunis, Ivoe immerses herself in the printed word until she earns a scholarship to the prestigious Willetson Collegiate in Austin. Finally fleeing the Jim Crow South to settle in Kansas City, Ivoe and Ona, her former teacher and present lover, start the first female-run African American newspaper, *Jam On the Vine*. In the throes of the Red Summer—the 1919 outbreak of lynchings and race riots across the Midwest—Ivoe risks her freedom and her life to call attention to the atrocities of the American prison system. Inspired by the legacy of trailblazing black women like Ida B. Wells and Charlotta Bass, LaShonda Katrice Barnett's *Jam On the Vine* is both an epic vision of the hardships that defined an era and "an ode to activism, writ[ten] with a scholar's eye and a poet's soul" (Tayari

Jones, O The Oprah Magazine).

Beginning with a general discussion of American Indian origins, language families, and culture areas, Deloria then focuses on her own people, the Dakotas, and the intricate kinship system that governed all aspects of their life. She writes, "Exacting and unrelenting obedience to kinship demands made the Dakotas a most kind, unselfish people, always acutely aware of those about them and innately courteous." Deloria goes on to show the painful transition to reservations and how the holdover of the kinship system worked against Indians trying to follow white notions of progress and success. Her ideas about what both races must do to participate fully in American life are as cogent now as when they were first written. Originally published in 1944, "Speaking of Indians" is an important source of information about Dakota culture and a classic in its elegant clarity of insight.

Filled with true stories, legends, and descriptions of traditional Dakota Sioux life, this book is a unique record of a people whose existence was engulfed and forever changed by the westward expansion of the United States. It is also the story of the Deloria family. Vine Deloria's grandfather, Chief Tipi Sapa (Philip Joseph Deloria) provided the detailed portrait of the Yankton band of the Dakota Nation that is the centerpiece of this book. In 1917 this great nineteenth-century leader told the story of the Yankton people to a non-Indian informant. In addition to describing spiritual beliefs, rituals, and traditions of all kinds, he recounted the stories and songs that bound the community together. Vine Deloria has expanded Tipi Sapa's stories and descriptions with material handed down in his family. In his introductory chapter, he revisits ancestral territory, telling the life stories of his grandfather and his great-grandfather Saswe (Francois des Laurier), a medicine man whose vision experience would have profound effects on his descendants. Both men played prominent roles in the religious life of the Yankton and Standing Rock Sioux. The Deloria family stories help us understand the revolutionary changes the Sioux were experiencing during this period, and they offer a sometimes wrenching contrast to Tipi Sapa's descriptions of a distinctive way of life that was already lost to the onrush of history.

*Religion and Culture in Native America* presents an introduction to a diverse array of Indigenous religious and cultural practices in

North America, focusing on those issues in which tribal communities themselves are currently invested. These topics include climate change, water rights, the protection of sacred places, the reclaiming of Indigenous foods, health and wellness, social justice, and the safety of Indigenous women and girls. Locating such contemporary challenges within their historical, religious, and cultural contexts illuminates how Native communities' responses to such issues are not simply political, but deeply spiritual, informed by sacred traditions, ethical principles, and profound truths. In collaboration with renowned ethnographer and scholar of Native American religious traditions Inés Talamantez, Suzanne Crawford O'Brien abandons classical categories typically found in religious studies textbooks and challenges essentialist notions of Native American cultures to explore the complexities of Native North American life. Key features of this text include: Consideration of Indigenous religious traditions within their historical, political, and cultural contexts Thematic organization emphasizing the concerns and commitments of contemporary tribal communities Maps and images that help to locate tribal communities and illustrate key themes. Recommendations for further reading and research Written in an engaging narrative style, this book makes an ideal text for undergraduate courses in Native American Religions, Religion and Ecology, Indigenous Religions, and World Religions.

We Talk, You Listen is strong, boldly unconventional medicine from Vine Deloria Jr. (1933-2005), one of the most important voices of twentieth-century Native American affairs. Here the witty and insightful Indian spokesman turns his penetrating vision toward the disintegrating core of American society. Written at a time when the traditions of the formerly omnipotent Anglo-Saxon male were crumbling under the pressures of a changing world, Deloria's book interprets racial conflict, inflation, the ecological crisis, and power groups as symptoms rather than causes of the American malaise: "The glittering generalities and mythologies of American society no longer satisfy the need and desire to belong," a theory as applicable today as it was in 1970. American Indian tribalism, according to Deloria, was positioned to act as America's salvation. Deloria proposes a uniquely Indian solution to the legacy of genocide, imperialism, capitalism, feudalism, and self-defeating liberalism: group identity and real community development, a kind of neo-tribalism. He also offers a fascinating cultural critique of the nascent "tribes" of the 1970s, indicting Chicanos, blacks, hippies, feminists, and others as misguided because they lacked comprehensive strategies and were led by stereotypes rather than an understanding of their uniqueness.

Vine Deloria Jr. (Standing Rock Sioux, 1933-2005) was the author of more than twenty books, including *Custer Died for Your Sins*, *Behind the Trail of Broken Treaties*, and *God Is Red*. Suzan Shown Harjo (Cheyenne & Muscogee) is a poet, lecturer, curator, columnist for *Indian Country Today*, policy advocate, and president of the Morning Star Institute, a national Indian rights organization.

NATIONAL BESTSELLER The true story of two African-American brothers who were kidnapped and displayed as circus freaks, and whose mother endured a 28-year struggle to get them back. The year was 1899 and the place a sweltering tobacco farm in the Jim Crow South town of Truevine, Virginia. George and Willie Muse were two little boys born to a sharecropper family. One day a white man offered them a piece of candy, setting off events that would take them around the world and change their lives forever. Captured into the circus, the Muse brothers performed for royalty at Buckingham Palace and headlined over a dozen sold-out shows at New York's Madison Square Garden. They were global

superstars in a pre-broadcast era. But the very root of their success was in the color of their skin and in the outrageous caricatures they were forced to assume: supposed cannibals, sheep-headed freaks, even "Ambassadors from Mars." Back home, their mother never accepted that they were "gone" and spent 28 years trying to get them back. Through hundreds of interviews and decades of research, Beth Macy expertly explores a central and difficult question: Where were the brothers better off? On the world stage as stars or in poverty at home? *TRUEVINE* is a compelling narrative rich in historical detail and rife with implications to race relations today.

The grace that stimulates the fruit and maturity of a sanctified life comes to us through Jesus Christ. We bear much fruit only as we abide in Him. In *A Vine-Ripened Life*, author Stanley Gale points us to Jesus, the Vine of life of John 15, in whom we, as branches, must live and grow to bear the fruit of a grace-grown life. He explains, "Having begun in Christ we remain in Christ, continuing to draw our life from Him and maturing in grace." With pastoral sensitivity and an engaging style, Gale teaches readers both about the fruit of Christian character and how to cultivate it. Questions at the end of each chapter make this an ideal study for individuals or groups.

*Jonah's Gourd Vine* Harper Collins

Vine Deloria, Jr., leading Native American scholar and author of the best-selling *God is Red*, addresses the conflict between mainstream scientific theory about our world and the ancestral worldview of Native Americans. Claiming that science has created a largely fictional scenario for American Indians in prehistoric North America, Deloria offers an alternative view of the continent's history as seen through the eyes and memories of Native Americans. Further, he warns future generations of scientists not to repeat the ethnocentric omissions and fallacies of the past by dismissing Native oral tradition as mere legends.
