The Routledge Companion to the Hispanic Enlightenment is an interdisciplinary volume that brings together an international team of contributors to provide a unique transnational overview of the Hispanic Enlightenment, integrating both Spain and Latin America. Challenging the usual conceptions of the Enlightenment in Spain and Latin America as mere stepsisters to Enlightenments in other countries, the Companion explores the existence of a distinctive Hispanic Enlightenment. The interdisciplinary approach makes it an invaluable resource for students of Hispanic studies and researchers unfamiliar with the Hispanic Enlightenment, introducing them to the varied aspects of this rich cultural period including the literature, visual art, and social and cultural history.

The A to Z of Spanish Cinema Tamesis Books

While studying the theory and contemporary impact of

‘embodied’ viewing, this book celebrates the emergence and development of Visual Studies as a major subject of research and teaching in the field of Hispanic Studies within the UK over the last thirty years. By exploring current routes of investigation, as well as analysing future pathways for study in the field, seven highly distinguished Spanish and Latin American scholars examine their own entry into Visual Studies, and discuss the major trends and changes which occurred in the field as matters of the visual gradually became embedded in higher-education curricula and research trajectories. Each scholar also lays out a current research project, or interest, concerning Spain or Latin America within the visual field. The projects variously explore different media – including film, sculpture, photography, dance, and performance art – spread across a wide array of geographical locales, including Mexico, Cuba, mainland Spain, and the Canary Islands. Offering a map of current and future research in the field, this book provides the first history of visual studies within UK Hispanism. It will be of lasting value to a wide range of scholars and advanced students of Spanish and Latin American cultural, visual, and film studies. This book was originally published as a special issue of the *Bulletin of Spanish Studies*.

Hispanic Balladry Today VINTAGE ESPAÑOL

"This is a major book for the field of contemporary Latin American poetry, original in its scope, depth, and breadth.... It is a showcase of recent currents of expression in Latin America."

—Jacobo Sefamí, Associate Professor of Spanish and Portuguese, University of California, Irvine Has poetry lost its relevance in the postmodern age, unable to keep pace with other forms of cultural production such as film, mass media, and the Internet? Quite the contrary, argues Jill Kuhnheim in this pathfinding book, which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time. Using a variety of interdisciplinary approaches, Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images; grapples with issues of ethnic, national, sexual, and urban identities; and incorporates rather than rejects technological innovations and elements from the mass media. Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy, modernization, immigration, globalization, economic shifts toward neoliberalism and informal economies, urbanization, and the technological revolution have been expressed in—and even changed the very form of—Spanish American poetry since the 1970s.

This report presents a statistical overview of the current housing conditions of selected races: White, Black; American Indian, Eskimo, or Aleut; and Asian or Pacific Islander households. Data are also shown for Hispanic-origin households. Generally, the report is based on data collected from the American Housing Survey (AHS) for the United States in 1987, a biennial national sample survey of approximately 55, 800 housing units conducted by the Bureau of the Census for the Department of Housing and Urban Development. Since the AHS does not obtain data on the individual groups comprising the Asian or Pacific Islander and the Hispanic-origin populations, data from the 1980 Public-Use Microdata Sample, a 1-percent sample of the United States population as enumerated in the 1980 Census, are included in this publication.

Emerging as one of the most exciting, fascinating, and special kinds of filmmaking in the world, Spanish cinema has been producing excellent directors, actors, and films for decades, including during the dark times of the Franco regime. With directors (Pedro Almodovar), actors and actresses (Javier Bardem and Penelope Cruz), and films (Abre los ojos and Alatrieste) amassing popularity, the outlook for Spanish cinema appears brighter than ever, and it is deservedly winning numerous fans abroad. --

Archaeopress Publishing Ltd

First published in 1989. The ballad or romance, as it is commonly called, has played a vital role over the centuries in Hispanic culture as an orally transmitted narrative song. It is characteristically the product of people who have had to look to themselves for entertainment. From the end of the fifteenth to the early seventeenth century, the romancero (balladry) enjoyed a great vogue among learned poets and their audiences, especially in the Spanish and Portuguese courts. The authors' intent in this book is to survey and to assess the state of the romancero, not only in Spain and Portugal, but also in peripheral areas where it has migrated and taken root.

An Anthology of Spanish Poetry Universidad de Salamanca

The Ku Klux Klan's persecution of Hispanics during the early 1920s was just as brutal as their terrorizing of the black community--a fact sparsely documented in historical texts. The KKK viewed Mexicans as subhuman foreigners supporting a Catholic conspiracy to subvert U.S. institutions and install the pope as leader of the nation, and mounted a campaign of intimidation and violence against them. Drawing on numerous Spanish-language newspapers and Klan publications of the day, the author describes the KKK's extensive anti-Hispanic activity in the southwest.

Spanish Thinking about Animals Tamesis Books

From East L.A. to the barrios of New York City and the Cuban neighborhoods of Miami, Latino literature, or literature written by Hispanic peoples of the United States, is the written word of North America's vibrant Latino communities. Emerging from the fusion of Spanish, North American, and African cultures, it has always been part of the American mosaic. Written for students and general readers, this encyclopedia surveys the vast landscape of Latino literature from the colonial era to the present. Aiming to be as broad and inclusive as possible, the encyclopedia covers all of native North American Latino literature as well as that created by authors originating in virtually every country of Spanish America and Spain. Included are more than 700 alphabetically arranged entries written by roughly 60 expert contributors. While most of the entries are on writers, such as Julia Alvarez, Sandra Cisneros, Lorna Dee Cervantes, Oscar Hijuelos, and Piri Thomas, others cover genres, ethnic and national literatures, movements, historical topics and events, themes, concepts, associations and organizations, and publishers and magazines. Special attention is given to the cultural, political, social, and historical contexts in which Latino literature has developed. Entries cite works for further reading, and the encyclopedia closes with a selected, general bibliography. Women in Hispanic Literature Cambridge Scholars Publishing

The topics covered by this pioneering collection of essays range from peninsular Spanish to Latin American literature, from the eleventh to the twentieth centuries, and from the subject of women as portrayed in Hispanic literature to the literature of Hispanic women writers. Some pieces present polemical feminist arguments, other are more traditional. All the contributors use their subject to take new stands on old controversies, ask new questions, and reevaluate important aspects of Hispanic literature. While there is ample evidence in these essays of the dual archetype in Hispanic literature of women as icon and woman as fallen idol, the collection reaches beyond these stereotypes to more complex sociological and theoretical concerns. Although such research has been abundantly pursued by scholars of English and American literature, it has been notably

absent from Hispanic studies. This anthology is a comprehensive introduction to its subject and a stimulus to further work in the area. Crow, a leading Hispanist, has culled the best translations available--by such poets as Richard Franschawe, Edward Fitzgerald, Percy Bysshe Shelley, Lord Byron, Henry Wadsworth Longfellow, William Cullen Bryant, Robert Southey, and many distinguished modern poets--of poems ranging from the eleventh century to the present to make this the most complete collection of both Spanish and Spanish American poetry in English translation. Represented here is work by such twentieth century poets as Gabriela Mistral, Octavio Paz, Federico García Lorca, César Vallejo, Pablo Neruda, Anotnio Machado, and Juan Ramón Jiménez, many of whom the editor has known personally. Housing Characteristics of Selected Races and Hispanic-origin Households in the United States Cambridge Scholars Publishing

In this volume, eighteen experts from a variety of academic backgrounds explore the use of songs in films from the Spanish- and Portuguese-speaking worlds. This volume illustrates how – rather than simply helping to tell the story of – songs in Hispanic and Lusophone cinema commonly upset the hierarchy of the visual over the aural, thereby rendering their hearing a complex and rich subject for analysis. Screening songs... constitutes a ground-breaking, interdisciplinary collection. Of particular interest to scholars and academics in the areas of Film Studies, Hispanic Studies, Lusophone Studies and Musicology, this volume opens up the study of Hispanic and Lusophone cinema to vital, new, critical approaches. The soundtracks of films as varied as *City of God*, *All About My Mother*, *Bad Education* and *Buena Vista Social Club* are analysed alongside those of lesser-known works that range from the melodramas of Mexican cinema's golden age to Brazilian and Portuguese musical comedies from the 1940s and 1950s. Fiction films are studied alongside documentaries, the work of established directors like Pedro Almodóvar, Carlos Saura and Nelson Pereira dos Santos alongside that of emerging filmmakers, and performances by iconic stars like Caetano Veloso and Chavela Vargas alongside the songs of Spanish Gypsy groups, Mexican folk songs and contemporary Brazilian rap.

Seeing in Spanish brings together 22 chapters which share a focus on aspects of visual cultures from the Spanish speaking world. Together these chapters address film, photography, cover art, body art, posters, television, architecture, ekphrasis, biography, murals, graffiti, and digital photo-montage. Between Don Quixote and Daddy Yankee, the essays move from the seventeenth century to the present and traverse Europe, the Americas, and cyberspace. The book is divided into five sections. The first of these, on Spain, includes chapters on the representation of women on LP covers in Spain in the 60s and 70s; portrayals in Spanish cinema of Saint Teresa; Luis Buñuel's adaptation of *Tristana*; urban and rural space in recent Spanish documentary film; Catalan television; fine art in *Don Quixote*; and visions of adoption in three narratives by Spanish writers and filmmakers. The second section, on Mexico and Peru, includes chapters on the fragmentary body in images of Mexico; the art of

Abraham Ángel; Jesús Ruiz Durand's agrarian reform posters; Diego Rivera's murals; and the role of artistic production in staging the 2006 Oaxaca conflict. The third section, on Cuba, looks at the portrayal of women and of children in recent cinema from the island. It also examines Nancy Morejón's celebration of the life and art of exiled Cuban artist Ana Mendieta. Section four includes chapters on Chile and Argentina. It addresses street art and graffiti; new forms of publishing; Chilean cinema after Pinochet; and Violeta Parra's appliqué and collage works. Section five embraces Colombia, Bolivia, and virtual spaces. The contributions to this last section of the book examine childhood in Colombian cinema; the online creativity of pro- and anti-fans of reggaeton; and the photographic diaries of T. Ifor Rees, the UK's first ambassador to Bolivia. In addition to the geo-political structure which underpins the book's five sections, the introduction suggests pathways through the contributions focussed on public art and graffiti, women, children, cyberspace and diplomacy, and reconstruction and disintegration. *Seeing in Spanish* includes 50 illustrations—stills from films, photographs, reproductions of paintings, and screen grabs from the internet—which complement the chapters' analyses of aspects of Hispanic visual cultures. To aid accessibility, footnotes throughout the book provide English translations of all references from texts in other languages. Taken together, the book's 22 chapters make a valuable contribution to the existing literature on figures like Don Quixote and Saint Teresa. They also break new ground in approaches to novel areas of scholarship such as sleeve design, artisanal book production, and digital image manipulation. The book will appeal to students and scholars of Spain and Latin America as well as to a general readership with an interest in the visual cultures of the Spanish speaking world.
