This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. In the climate of "make do and mend," sales of sewing machines have soared, but many are only accompanied by a difficult-to-understand technical manual. Here, Jane Bolsover provides a comprehensive guide for beginners. Starting with an essential overview of the sewing machine, learn how to thread it and wind bobbins, why tension is important, and which needles to choose. There's information on the basic sewing kit you will need, plus advice on which fabrics to choose and how to cut out. The chapters then build into a complete sewing course, and at the end of each chapter is a simple project to consolidate the skills you have just mastered. The projects include items for the home, including a cushion cover and a lampshade, stylish accessories, such as bags and scarves, plus great clothing basics, such as an A-line skirt and a simple shift dress. Also included at the back of the book are two full-size pull-out paper pattern sections.

Terrorism, ethnocentrism, religious tension, competition over limited resources, war - these are just a few of the problems and challenges that have emerged in today's global economy. Globalization both implies and requires economic interdependence; and this should bring with it a heightened sense of the interconnectedness of the participating societies. But unfortunately, as recent events indicate, rather than our having formed a global community, today's society is more fragmented than ever. In light of this, education faces some formidable new challenges. How do we prepare future citizens for the world they will live in? How do we teach future generations to embrace the paradox of accepting the value of multiculturalism despite the conflicts it has produced? How do we instill religious tolerance in a time when fundamentalism has become inextricably tied with terrorism? How do we promote economic growth in the face of overpopulation and its depletion of resources? The authors of this collection of essays explore these and related challenges, and they suggest some novel ways of dealing with them.

Enlarged print edition now available! Writing in an approachable and anecdotal style, Tom Wright helps us see the great sweep of this letter. Romans has long been viewed as the book above all in which Paul puts forth the basic doctrines of the faith, and the picture of God's life for us. It is the classic setting-out of the Gospel. Tom Wright has undertaken a tremendous task: to provide guides to all the books of the New Testament, and to include in them his own translation of the entire text. Each short passage is followed by a highly readable discussion with background information, useful explanations and suggestions, and thoughts as to how the text can be relevant to our lives today. A glossary is included at the back of the book. The series is suitable for group study, personal study, or daily devotions.

Mark Mathabane first came to prominence with the publication of *Kaffir Boy*, which became a New York Times bestseller. His story of growing up in South Africa was one of the most riveting accounts of life under apartheid. Mathabane's newest book, *Miriam's Song*, is the story of Mark's sister, who was left behind in South Africa. It is the gripping tale of a woman -- representative of an entire generation -- who came of age amid the violence and rebellion of the 1980s and finally saw the destruction of apartheid and the birth of a new, democratic South Africa. Mathabane writes in *Miriam's voice* based on stories she told him, but he has re-created her unforgettable experience as

only someone who also lived through it could. The immediacy of the hardships that brother and sister endured -- from daily school beatings to overwhelming poverty -- is balanced by the beauty of their childhood observations and the true affection that they have for each other.

Paul for Everyone: Romans, Part One CRC Press

To what extent could Max Weber's ethic of responsibility serve as a model for us today? An adequate answer to this question could only be given on the basis of a satisfactory interpretation and thorough assessment of his ethic of responsibility. In this monograph Etienne de Villiers sets himself the task of doing just that. He establishes that, in spite of serious shortcomings, Weber's ethic points to the contemporary need for an ethic of responsibility as a second-level normative ethical approach that would address the undermining effect of modernisation on ethical living. Such a contemporary ethic of responsibility would provide guidelines on how ethical living could be responsibly enhanced in our time. The author also presents a brief proposal on how a contemporary ethic of responsibility might be designed.

In a globalised society, dance is gaining in importance as a means of conveying body knowledge: It is perceived as an art form in itself, is fostered and cultivated within the bounds of cultural and educational policy, and is increasingly becoming the subject of research. Dance is in motion all over the world, and with it the knowledge that it holds. But what does body knowledge in motion constitute, how is it produced, how can it be researched and conveyed? Renowned choreographers, dancers, theorists and pedagogues describe the unique potential of dance as an archive and medium as well as its significance at the interface between art and science. Contributors are, among others, Gabriele Brandstetter, Dieter Heitkamp, Royston Maldoom and Meg Stuart.

This volume presents a historical-sociolinguistic description and analysis of Maritime Polynesian Pidgin. It offers linguistic and sociohistorical substantiation for a regional Eastern Polynesian-based pidgin, and challenges conventional Eurocentric assumptions about early colonial contact in the eastern Pacific by arguing that Maritime Polynesian Pidgin preceded the introduction of Pidgin English by as much as a century. Emanuel J. Drechsel not only opens up new methodological avenues for historical-sociolinguistic research in Oceania by a combination of philology and ethnohistory, but also gives greater recognition to Pacific Islanders in early contact between cultures. Students and researchers working on language contact, language typology, historical linguistics and sociolinguistics will want to read this book. It redefines our understanding of how Europeans and Americans interacted with Pacific Islanders in Eastern Polynesia during early encounters and offers an alternative model of language contact.

A Kingdom for a Stage Simon and Schuster

"Michael J. Chan argues, on a methodological level, for the deeper integration of iconographic materials into the task of tradition history—a method that has tended to focus on textual evidence alone. Following the work of O.H. Steck, however, 'tradition' is understood in more flexible terms, to refer to inherited concepts and constellations, which can exist across multiple media. The author undertakes a tradition-historical study of the 'Wealth of Nations Tradition' - a series of texts in which the foreign nations of the earth bring their wealth to Zion (1 Kgs 10:1-10, 13, 15//2 Chr 9:1-9, 12, 14; 1 Kgs 10:23-25//2 Chr 9:22-24; Pss 68:19, 29-32; 72:10-11; 76:12; 96:7-8//1 Chr 16:28-29; Isa 18:7; 45:14; 60:4-17; 61:5-6; 66:12; Zeph 3:10; 2 Chr 32:23). The Wealth of Nations tradition is found throughout the ancient Near East. Michael J. Chan shows that in some cases, the biblical texts reflect this tradition with little to no modification while in others the tradition is recast in creative and disruptive ways"--
