This new edition of the Modern French Grammar is an innovative reference guide to French, combining traditional and function-based grammar in a single volume. Divided into two parts, Part A covers traditional grammatical categories such as word order, nouns, verbs and adjectives and Part B is organized around language functions and notions such as: giving and seeking information describing processes and results expressing likes, dislikes and preferences. With a strong emphasis on contemporary usage, all grammar points and functions are richly

illustrated with examples. Implementing feedback from users of the first edition of the Grammar, this second edition includes clearer explanations and greater emphasis on areas of particular difficulty for learners of French. This is the ideal reference grammar for learners of French at all levels, from beginner to advanced. This practical grammar book is the result of 16 years of teaching online to adults and young students located all over the world. Every grammar point is followed with exercises to practice what has been taught. Whenever possible, the answers are included in the back of the book (some answers are open ended questions and therefore have no right or wrong answers). This grammar book is aimed to teach A1 levels (total beginners) to the B1 level (intermediate level). Perfect for self-study, but also ideal for supplementary grammar activities in the classroom.
