In Honor of the Gods : Ancient Greek Mythology | Ancient Greece | Social Studies 5th Grade | Children's Geography & Cultures Books Math Solutions

Illustrated in full color throughout, this delightful collection puts the riches of world mythology at the fingertips of students and storytellers alike. It is a treasury of favorite and little-known tales from Africa, Asia, Europe, the Americas, Australia, and Oceania, gracefully retold and accompanied by fascinating, detailed information on their historic and cultural backgrounds. The introduction

provides an informative overview of mythology, its purpose in world cultures, and myth in contemporary society and popular culture. Mythic themes are defined and the often-misunderstood difference between myth and legend explained. Following this, the main sections of the book are arranged thematically, covering The Creation, Death and Rebirth, Myths of Origins, Myths of the Gods, and Myths of Heroes. Each section begins by comparing its theme cross-culturally, explaining similarities and differences in the mythic narratives. Myths from diverse cultures are then presented, introduced, and retold in a highly readable fashion. A bibliography follows each retelling so readers can find more information on the culture, myth, and deities. Character, geographical, and general indexes round out this volume, and a master bibliography facilitates research. For students, storytellers, or anyone interested in the wealth of world mythology, *Mythology: Stories and Themes from Around the World* provides answers to common research questions, sources for myths, and stories that will delight, inform, and captivate.

Mythology for Teens: Classic Myths in Today's World takes classical mythology to a new level by

relating ancient stories to the culture, history, art, and literature of today. By looking at topics instrumental to both mythology and modern culture, teens are encouraged to question topics such as the repercussions of war, vanity and greed, the workings of fate, the nature of love, the roles of women in society, revenge and forgiveness, the meaning of life, and national identity. The majority of high school humanities and Advanced Placement courses teach classical mythology by simply retelling myths. By using teen-friendly reader's theater scripts to tell the legends, in combination with activities, discussion questions, and exercises that help students apply what they've learned to real life, *Mythology for Teens* takes the classic myths taught in school and turns them into an engaging, interesting, and fresh way of looking at old material.
