As dazzling as the decade they dominated, The Beatles almost single-handedly created pop music as we know it. Today, their songs are cited as seminal influences by stars like Oasis, Blur and Kula Shaker. Eloquently giving voice to their time, The Beatles quite simply changed the world. Fully updated to include material from The Beatles Live at the BBC and the Anthology series, this acclaimed book goes back to the heart of The Beatles - their records. Drawing on a unique resource of knowledge and experience to 'read' their 241 tracks - chronologically from their

first amateur efforts in 1957 to 'Real Love', their final 'reunion' recording in 1995 - Ian MacDonald has created an engrossing classic of popular criticism in which the extraordinary songs of The Beatles remain a central and continually surprising presence. *Beatlesongs* Hal Leonard Corporation

A legendary record producer and performer takes readers on an alphabetical journey of insights into the music of the Beatles and individual reminiscences of John, Paul, George, and Ringo. Peter Asher met the Beatles in the spring of 1963, the start of a lifelong association with the band and its members. He had a front-row seat as they elevated pop music into an art form, and he was present at the creation of some of the most iconic music of our times. Asher is also a talented musician in his own right, with a great ear for what was new and fresh. Once, when Paul McCartney wrote a song that John Lennon didn't think was right for the Beatles, Asher asked if he could record it. "A World Without Love" became a global No. 1 hit for his duo, Peter & Gordon. A few years later Asher was asked by Paul McCartney to help start Apple Records; the first artist Asher discovered and

signed up was a young American singer-songwriter named James Taylor. Before long he would be not only managing and producing Taylor but also (having left Apple and moved to Los Angeles) working with Linda Ronstadt, Neil Diamond, Robin Williams, Joni Mitchell, and Cher, among others. The Beatles from A to Zed grows out of his popular radio program "From Me to You" on SiriusXM's The Beatles Channel, where he shares memories and insights about the Fab Four and their music. Here he weaves his reflections into a whimsical alphabetical journey that focuses not only on songs whose titles start with each letter, but also on recurrent themes in the Beatles' music, the instruments they played, the innovations they pioneered, the artists who influenced them, the key people in their lives, and the cultural events of the time. Few can match Peter Asher for his fresh and personal perspective on the Beatles. And no one is a more congenial and entertaining guide to their music.

In Take a Sad Song: The Emotional Currency of "Hey Jude," James Campion dives deeply into the song's origins, recording, visual presentation, impact, and eventual influence, while also discovering what makes "Hey Jude" a classic musical expression of personal comfort and societal unity conceived by a master songwriter, Paul McCartney. Within its melodic brilliance and lyrical touchstones of empathy and nostalgia resides McCartney's personal and professional relationship with his childhood friend and songwriting partner, John Lennon, and their simultaneous pursuit of the women who would complete them. There are also clues to the growing turmoil within the Beatles and their splintering generation scarred by war, assassination, and virulent protest. Campion's journey into the song includes the insights of academic experts and professors in the field of musicology,

sociology, philosophy, psychology, and history. Campion also reveals commentary from noted Beatles authors, biographers, music historians, and journalists and, finally, a peek into the craft of songwriting from a host of talented composers across several generations. Take a Sad Song is a tribute to how a song can define, inspire, and affect us in ways we do not always fully comprehend, as well as a celebration of a truly amazing track in the Beatles canon that reveals one band's genius and underscores its lasting voice in our cultural and musical landscape.

The Gig Book Routledge

When Billy J. Kramer's "Do You Want To Know A Secret?" by Lennon and McCartney topped the charts in 1963, he was the first singer in the world to have a number one hit with a Beatles song, apart from the Fab Four themselves. This propelled the

teenage Kramer into the fast lane, and he followed it with another five top twenty singles in the next two years. In this autobiography, Billy J. Kramer (born William Ashton) tells his rags to riches story, from his working class childhood in Liverpool to the racy world of international pop music. Managed by Brian Epstein, produced by George Martin, and friend, confidante and colleague of the Beatles, Kramer gives a definitive insider's account of the birth of the Liverpool sound and also the "British Invasion" of the USA. But there are dark secrets in the Kramer story. Before he reached his twenties, he was in the grip of drugs and alcohol, and there were constant tensions between him and his backing band, the Dakotas. When the screaming stopped, he reinvented himself as a cabaret performer, and some of his best records were made in the years he was out of the limelight. With a young family, drink and pills made his domestic life, and eventually his professional life, a struggle. In this no-holds-barred account, Kramer brings to life the vibrancy of the sixties. He then reveals how he exorcised his demons and forged a new career in the United States. He assembles his current band, shows a growing mastery of songwriting, and returns to national tours of Britain and the USA, keeping the flame of the Mersey sound alive. The lifetime of experience he brings to his new songs infuses every page of this enthralling read.

In Their Lives Createspace Independent Publishing Platform
Now in paperback, Tune In is the New York Times bestseller by the world's leading Beatles authority – the first volume in a groundbreaking trilogy about the band that revolutionized music. The Beatles have been in our lives for half a century and surely always will be. Still, somehow, their music excites, their influence resonates, their fame sustains. New generations find and love them, and while many other great artists come and go, the Beatles are beyond eclipse. So . . . who really were these people, and just how did it all happen? 'The Beatles story' is everywhere. Told wrong from early on, rehashed in every possible way and routinely robbed of its context, this is a phenomenon in urgent need of a bright new approach. In his series All These Years, Mark Lewisohn – the world-recognized Beatles historian – presses the Refresh button to relate the entire story as it's never been told or known before. Here is a full and accurate biography at last. It is certain to become the lasting word. Tune In is book one of three, exploring and explaining a period that is by very definition lesser-known: the formative pre-fame years, the teenage years, the Liverpool and Hamburg years – in many ways the most absorbing and incredible period of them all. The Beatles come together here in all their originality, attitude, style, speed, charisma, appeal, daring and honesty, the tools with which they're about to reshape the world. It's the Beatles in their own time, an amazing story of the ultimate rock band, a focused and colorful telling that builds and builds to leave four sharp lads from Liverpool on the very brink of a whole new kind of fame. Using impeccable research and resources, Tune In is a magisterial work, an independent

biography that combines energy, clarity, objectivity, authority and insight. The text is anti-myth, tight and commanding - just like the Beatles themselves. Here is the Beatles story as it really was. Throw away what you think you know and start afresh.
