Join the cult authors of Sh\*t Towns of

Australia on an unforgettably crap journey through Australia's sh\*ttest towns. Aussies love a road trip. Packing up the ute and slogging for hours or days to get to some town that's only slightly less sh\*t than where you came from is just part of living on the sprawling expanse of mediocrity that is Australia. The Great Aussie Road Trip presents seven epic routes that together take in the most iconic sh\*tholes in the country, from Bondi to the black stump

and back. From the authors who brought you the ridiculous bestseller *Sh\*t Towns of Australia*, this book covers dozens more crap towns and sh\*tty city suburbs, as well as quintessential events, regional foods and other nuggets of knowledge to inform your turdy itinerary. Whether you're keen for a sh\*t trip, a crap lap or a sewer tour, *The Great Aussie Road Trip* will help ensure you have a terrible time on your travels.

SUVs have taken over America's roads. Ad campaigns promote them as safer and "greener" than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control.

Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not. *Facts and Figures* Allen & Unwin

The auto industry is facing tough competition and severe economic constraints. Their products need to be designed "right the first time" with the right combinations of features that not only satisfy the customers but continually please and delight them by providing increased functionality, comfort, convenience, safety, and craftsmanship. How do I know it's God? is one of the

most commonly asked questions of new and mature Christians alike, and the aim of God Conversations is to both equip and inspire the reader and show them that hearing the voice of the Spirit is accessible to everyone who chooses to follow Jesus. Most Christians know that God speaks, yet struggle with how to recognise his voice in their everyday lives. What does God's voice sound like? How do we know if what we're hearing is from God? Stories of God talking to his people abound throughout the Bible, but we usually only get the highlights. We read; "And God said to Joseph; 'Go to Egypt'," and then; "Mary and Joseph left for Egypt." We don't get a blow-by-blow description of how God spoke. We don't receive a detailed explanation of how they knew it was God, and we don't get

to see what was going on inside their heads as they acted on what they'd heard. In *God Conversations*, international speaker and pastor Tania Harris shares insights from her own journey about hearing God's voice. You'll get to eavesdrop on some contemporary conversations with God in the light of his communication with the ancient characters of the Bible. Part memoir, part teaching, this unique and creative collection of stories will help you to recognise God's voice when he speaks and how to respond when you do.

*The Toyota Land Cruiser* African Books Collective

Chris Scott and his band of globetrotting contributors and specialists have put together the definitive manual for planning and undertaking a vehicle-

dependent overlanding adventure across the wilds of Africa, Asia and Latin America. *The Overlanders' Handbook* is written in the same entertaining yet clear jargon-free English for which Chris's other books are known - it doesn't assume you know your plug gap from a radiator cap. Planning - When to go; typical costs; documentation; sponsorship; early overland journeys. Vehicle choice and preparation - *The Overlanders' Handbook* is the most comprehensive account in print, covering everything from adapting a cheap car to equipping a campervan or 4x4 for months on the road, or even building and outfitting your own accommodation module to mount on an all-terrain truck chassis. Life on the road - How to handle dodgy borders, haggle

over a purchase, treat a dodgy stomach and cope with crazy driving conditions. Guidance on wild camping; navigation and mapping strategies; onward shipping; advice for solo women overlanders; travelling with children or with pets; vehicle repairs and troubleshooting; and off-road driving techniques. Continental route outlines – Guidelines on both popular and obscure overland routes through Africa, Asia and Latin America. Includes fuel prices, easiest borders and best seasons, visa strategies, danger zones and regional highlights. Overlanders' Tales – Half a dozen accounts of global adventures lasting months or even years – in vans, 4x4s and all-terrain trucks – from contributors aged from 9 to 69. Sometimes sacrifices are worth the cost. Even, or perhaps most especially, those made out of love. Eleanor Sawyer is a fixer. People pay her to fix their companies for them, and she's never met a problem she couldn't figure out. Until Daniel Connor hired her. And it's not his company she's having problems with. No, she has a plan for how to increase Connor Hotels' sales in the American market, and it's good enough that she's impressing even herself. When it comes to figure out Daniel himself, though, and those flashing eyes, smiling lips, and flirty looks... along with the occasional kiss... she's finding herself at a complete loss. She doesn't know if she wants to play along or tell him to

remember who she is: just another employee. Because now she's got an even bigger problem. She's starting to fall in love with him. Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood

directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, Torn Trousers is a real modern fairytale about getting

exactly what you wished for...and then having to live with it. Scroll up and buy to escape to Africa today!

These short stories by Zimbabwean poet and novelist, John Eppel, are not for the politically correct. Eppel should have listened to the wise words of Enobarbus in Shakespeare's Antony and Cleopatra: 'That the truth should be silent, I had almost forgot'. But, once a fool, always a fool. In White Man Walking, you will find semi-fictionalised accounts of greed,

cruelty, and corruption; idiocy, naivety, and irresponsibility. Oh, and there are occasional moments of tenderness!
