When the alien Tripod machines land on Earth, they don't seem much of a threat. The first skirmishes end in victory for the human forces. But the real danger - the insidious mind-controlling powers of the Tripod Masters - is only just beginning. Laurie and his family must flee their homes as the invaders tighten their tentacled

grip - and find a place to start the fight back... The thrilling and eerie prequel John Christopher's classic dystopian Tripods series is available for the first time in ebook format.
Tripods: When the Tripods Came Clarkson Potter
Nobody knows how long it has been since the Tripods came. Nobody remembers life on Earth before they enslaved it.

Humans live in scattered farms and villages, kept quiet and obedient by the mind-controlling Caps implanted when they reach their teens. Will Parker's time is fast approaching - but a chance encounter with a madman convinces him that it may still be possible to resist the alien masters. So begins an epic tale of survival and defiance - and Will's journey to the White Mountains. John Christopher's classic dystopian series is available for the first time

in ebook format. **Understanding the Enneagram** Random House
 Monstrous machines rule the Earth, but a few humans are fighting for freedom in this repackaged start to a classic alien trilogy ideal for fans of Rick Yancey's The 5th Wave. Will Parker never dreamed he would be the one to rebel against the Tripods. With the approach of his thirteenth birthday, he expected to attend his Capping ceremony as planned and to become

connected to the Tripods—huge three-legged machines—that now control all of Earth. But after an encounter with a strange homeless man called Beanpole, Will sets out for the White Mountains, where people are said to be free from the control of the Tripods. But even with the help of Beanpole and his friends, the journey is long and hard. And with the Tripods hunting for anyone who tries to break free, Will must reach the White Mountains fast. But the longer he's away from his

home, the more the Tripods look for him...and no one can hide from the monstrous machines forever.

The Visual Poetics of Power Simon and Schuster

Love proves ancient as time itself in this prehistoric adventure

romance from critically acclaimed Tripods author John Christopher. In the beginning, many, many years ago, there were two tribes. Dom was a boy from the hunting tribe, and Va was a girl from the farming tribe. The two tribes fought, but that couldn't stop Dom and Va from falling in love. In the midst of battle, Dom escapes and takes Va with him. Together, they journey across the stark landscape of eons past, learning about the harsh and aggressive world around them even as they

learn more about the creative and peaceful feelings within themselves. In the Beginning includes the prequel short story "In the Beginning" and the novel Dom and Va, and marks a captivating departure from John Christopher's other, futuristic work: this is a tale of the distant past, and of a beginning that represents the conflicts inherent in human nature—and the dark and light in all of us. *The Tripods Attack!* Lexington Books First published in 1897,

H.G. Wells's alien invasion narrative *The War of the Worlds* was a landmark work of science fiction and one that continues to be adapted and referenced in the 21st century. Chronicling the novel's contexts, its origins and its many multi-media adaptations, this book is a complete biography of the life – and the afterlives – of *The War of the Worlds*. Exploring the original text's compelling sense of place and vivid recreation of Wells's working home and the concerns of fin-de-

siècle Britain, the book goes on to chart the novel's immediate international impact. Starting with the initial serialisations in US newspapers, Peter Beck goes on to examine Orson Welles's legendary 1938 radio adaptation, TV and film adaptations from George Pal to Steven Spielberg, Jeff Wayne's rock opera and the numerous other works that have taken their inspiration from Wells's original. Drawing on new archival research, this is a comprehensive account of

the continuing impact of *The War of the Worlds*.

In *The Visual Poetics of Power*, Nassos Papalexandrou illuminates the early history of the tripod cauldron, the most sacred symbol of the Greeks. He also explores the performative dimensions of the figurative arts in the preliterate contexts of early Greek sanctuaries.
