*A Night to Remember*  
Henry Holt  
and Company  
As The Giving  
Tree turns  
fifty, this  
timeless  
classic is  
available for  
the first time  
ever in ebook  
format. This

digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. "Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene

acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a

bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*,

*Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic!* [Everyday Life in Early America](#) *Anchor* This book is a collection of poems short stories and things remembered from the author's years of growing up. The poems were started when, while watching tv, I started writing

down stuff about angels. The next thing I knew I had three poems written about angels. Things just kept going from there. The book of Ruth has always been a favorite of mine. Before I got through writing the story about Ruth, I felt led to write the story on Ester. A dear friend who is a retired school teacher, read these poems and stories and encouraged me to continue and put all my

writings into a book. Many of the stories are from family experiences, so, one could say they really are true stories. I hope something in this book will touch and change someones life. *The Mirror & the Light* HarperCollins Publishers "The ten acclaimed stories in this collection are pervaded by an air of Japanese ghostliness. In beautifully crafted and deceptively light prose, Nakajima portrays men

and women beset by cultural amnesia and unaware of how haunted they are - by fragmented memories of war and occupation, by fading traditions, by buildings lost to firestorms and bulldozers, by the spirits of their recent past."-- Publisher's page. [How to Remember \(Almost\) Everything, Ever!](#) Portico "In this clearly written volume, Hawke provides

enlightening and colorful descriptions of early Colonial Americans and debunks many widely held assumptions about 17th century settlers."-- Publishers Weekly

A New York Times Notable Book: A psychologist's "gripping and thought-provoking" look at how and why our brains sometimes fail us (Steven Pinker, author of How the Mind Works). In this intriguing study, Harvard psychologist Daniel L. Schacter explores the memory miscues that occur in everyday life, placing them into seven categories: absent-mindedness, transience, blocking, misattribution, suggestibility, bias, and persistence. Illustrating these concepts with vivid examples—case studies, literary excerpts, experimental evidence, and accounts of highly visible news events such as the O. J. Simpson verdict, Bill Clinton's grand jury testimony, and the search for the Oklahoma City bomber—he also delves into striking new scientific research, giving us a glimpse of the fascinating neurology of memory and offering "insight into common malfunctions of the mind" (USA Today). "Though memory failure can

amount to little more than a mild annoyance, the consequences of misattribution in eyewitness testimony can be devastating, as can the consequences of suggestibility among pre-school children and among adults with 'false memory syndrome' . . . Drawing upon recent neuroimaging research that allows a glimpse of the brain as it learns and remembers,

Schacter guides his readers on a fascinating journey of the human mind." —Library Journal "Clear, entertaining and provocative . . . Encourages a new appreciation of the complexity and fragility of memory." —The Seattle Times "Should be required reading for police, lawyers, psychologists, and anyone else who wants to understand how memory can go terribly wrong." —The

Atlanta Journal-Constitution "A fascinating journey through paths of memory, its open avenues and blind alleys . . . Lucid, engaging, and enjoyable." —Jerome Groopman, MD "Compelling in its science and its probing examination of everyday life, *The Seven Sins of Memory* is also a delightful book, lively and clear." —Chicago Tribune Winner of the

 In this powerful, provocative SF classic from the award-winning author of *The Forever War*, a young man of peace is transformed into an intergalactic killer. Once Otto McGavin was a kind and gentle soul; then he was recruited by the all-powerful Confederación . An ultrasecretive, government-linked

organization, the Confederación 's stated mission of protecting threatened life, both human and alien, throughout the galaxy greatly appeals to the Anglo-Buddhist McGavin as he eagerly prepares to embark on a career of diplomacy and selfless works. But Otto's new masters have other plans for the idealistic young recruit. Through a process of immersion therapy and

hypnosis, and by encasing him in temporary bodies of plastiflesh, scientists can overlay Otto's true persona with other ones, transforming him completely—body, mind, and soul—into the ruthlessly effective prime operator the Confederación wants him to be. But decades of interstellar subterfuge and violence, and years spent wearing the personae of spies and cold-blooded

killers, must ultimately take their toll—and before he leaves behind the lives that have been cruelly thrust upon him, Otto McGavin will have to somehow come to terms with who he really is and the monstrous things he has done. One of the most powerful and thought-provoking stories from the Hugo and Nebula Award-winning author of *Worlds* and *The Forever War*, Joe Haldeman's

*All My Sins Remembered* is a stunning work of speculative fiction. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection. *The Seven Sins of Memory* Open Road Media Explains the concept of being Wholarian, which is to accept that people are one with everything and part of the whole, which

encompasses all that can and cannot be seen, and to see others without prejudice or bias.

**The Giving Tree** Penguin Who better to tell the story of the gentrification of a musical genre than the man who started out as Jungle's most streetwise ambassador and went on to collect an MBE from Buckingham Palace? But Goldie's uncensored, hard-hitting memoir is far more than just the story of

the house-training of drum 'n' bass. As one of Britain's most influential DJs, producers, promoters, and record-label owners - whose contributions to the UK rave scene in the 1990s defined the genres jungle and urban rave, Goldie is an iconic figure. Hugely addictive, this gonzo memoir is a vertiginous thrill-ride from the darkest depths of the West Midlands care-home system to the snowiest

uplands of coke-crazed international celebrity. It is an explosive story of abuse, revenge, graffiti, gold teeth, sawn-off shotguns, car crashes, hot yoga, absent fatherhood, and redemption through reality TV. [A Life Remembered](#) HMH A fleeting affair lingers in the memory of a woman. Thirty years after the event, when both husband and lover have died, she

remembers one further detail. Part of the Storycuts series, this short story was previously published in the collection *Hateship, Friendship, Courtship, Loveship, Marriage. Lovers Small Things Like These is an award-winning author Claire Keegan's landmark new novel, a tale of one man's courage and a remarkable portrait of love and family. It is set in 1985 in a small Irish town. During the weeks leading up to Christmas, Bill Furlong, a coal merchant and family man, faces his busiest season. Early one morning, while delivering an order to the local convent, Bill makes a discovery

which forces him to confront both his past and the complicit silences of a town controlled by the church. Already an international bestseller, *Small Things Like These* is a deeply affecting story of hope, quiet heroism, and empathy from one of our most critically lauded and iconic writers. Things Remembered Harper Collins #1 New York Times Bestseller: The definitive book on the sinking of the

Titanic, based on interviews with survivors, by the author of *The Miracle of Dunkirk*. At first, no one but the lookout recognized the sound. Passengers described it as the impact of a heavy wave, a scraping noise, or the tearing of a long calico strip. In fact, it was the sound of the world's most famous ocean liner striking an iceberg, and it served as the death knell for 1,500 souls. In the next two hours and forty minutes,

the maiden voyage of the Titanic became one of history's worst maritime accidents. As the ship's deck slipped closer to the icy waterline, women pleaded with their husbands to join them on lifeboats. Men changed into their evening clothes to meet death with dignity. And in steerage, hundreds fought bitterly against certain death. At 2:15 a.m. the ship's band played

"Autumn." Five minutes later, the Titanic was gone. Based on interviews with sixty-three survivors, Lord's moment-by-moment account is among the finest books written about one of the twentieth century's bleakest nights. **All Things Remembered** Delacorte Press Traces the story of the MacIvey family of Florida from 1858 to 1968. *Small Things*

Sort of Books

I am happy when I see atoms dance. I like the conversation of strangers in new places. I like turning the pages of books, and going on new journeys to new places. I like to hear

the whistle of a train leaving a platform, nudging the compass needle to a new resting place. I like the sound of a ship's horn announcing a departure to a new destination.

The sun shines with vigor. The river sings joyously. All is gold and blessed.

These and other ideas are explored in this collection of essays culled from my newspaper columns published in the El Paso

Times between 1998 and 2019. A Land Remembered Harper Collins An up close and personal portrait of a legendary filmmaker, theater director, and comedian, drawing on candid conversations with his closest friends in show business and the arts—from Dustin Hoffman and Meryl Streep to Natalie Portman and Lorne Michaels. The work of Mike Nichols pervades

American cultural consciousness—from *The Graduate* and *Who's Afraid of Virginia Woolf?* to *Angels in America*, *The Birdcage*, *Working Girl*, and *Primary Colors*, not to mention his string of hit plays, including *Barefoot in the Park* and *The Odd Couple*. If that weren't enough, he was also one half of the timelessly funny duo *Nichols & May*, as well as a founding member of

the original improv troupe. Over a career that spanned half a century, Mike Nichols changed Hollywood, Broadway, and comedy forever. Most fans, however, know very little of the person behind it all. Since he never wrote his memoirs, and seldom appeared on television, they have very little sense of his searching intellect or his devastating wit. They don't know that Nichols, the great American

director, was born Mikail Igor Peschkowsky, in Berlin, and came to this country, speaking no English, to escape the Nazis. They don't know that Nichols was at one time a solitary psychology student, or that a childhood illness caused permanent, life-altering side effects. They don't know that he withdrew into a debilitating depression before he "finally got it right," in his words, by

marrying Diane Sawyer. Here, for the first time, Ash Carter and Sam Kashner offer an intimate look behind the scenes of Nichols' life, as told by the stars, moguls, playwrights, producers, comics and crewmembers who stayed loyal to Nichols for years. Life Isn't Everything is a mosaic portrait of a brilliant and original director known for his uncommon charm, wit, vitality, and

genius for friendship, this volume is also a snapshot of what it meant to be living, loving, and making art in the 20th century.

 Jungle and Drum & Bass was like nothing else the world had experienced before - simultaneously black and white, urban and suburban, old skool attitude and new school innovation. A socio-cultural melting pot of early 90s broken Britain seizing the

wheel and taking control of the machine. Originally published in 1997, *State of Bass* explores the scene's roots through its social, cultural and musical antecedents and on to its emergence via the debate that surrounded the apparent

split between jungle and drum & bass. Drawing on interviews with some of the key figures in the early years, *State of Bass* explores the sonic shifts and splinters of new variants, styles and subgenres as it charts the journey from the early days

to its position as a global phenomenon. *State of Bass* extends the original text to include the award of the Mercury Prize to Reprazent for the *New Forms* album and brings new perspectives to the story of the UK's most important subterranean urban energy.
