“Aven is a perky, hilarious, and inspiring protagonist whose attitude and humor will linger even after the last page has turned.”  
—School Library Journal (Starred review) Aven Green loves to

tell people that she lost her arms in an alligator wrestling match, or a wildfire in Tanzania, but the truth is she was born without them. And when her parents take a job running Stagecoach Pass, a rundown western theme park in Arizona, Aven moves with them across the country knowing that she'll have to answer the question over and over again. Her new life takes an unexpected

turn when she bonds with Connor, a classmate who also feels isolated because of his own disability, and they discover a room at Stagecoach Pass that holds bigger secrets than Aven ever could have imagined. It's hard to solve a mystery, help a friend, and face your worst fears. But Aven's about to discover she can do it all . . . even without arms. Autumn 2017 Kids' Indie Next Pick Junior

A riveting history of the American West told for the first time through the pioneering women who used the challenges of migration and settlement as opportunities to advocate for their rights, and transformed the country in the process

Between 1840 and 1910, hundreds of thousands of men and women traveled deep into the underdeveloped American West, lured by the prospect of adventure and opportunity, and galvanized by the spirit of Manifest Destiny. Alongside this rapid expansion of the United States, a second, overlapping social shift was taking place: survival in a settler society busy

building itself from scratch required two equally hardworking partners, compelling women to compromise eastern sensibilities and take on some of the same responsibilities as their husbands. At a time when women had very few legal or economic--much less political--rights, these women soon proved they were just as essential as men to westward expansion. Their efforts to

attain equality by acting as men's equals paid off, and well before the Nineteenth Amendment, they became the first American women to vote. During the mid-nineteenth century, the fight for women's suffrage was radical indeed. But as the traditional domestic model of womanhood shifted to one that included public service, the women of the West were becoming not only

coproviders for their families but also town mothers who established schools, churches, and philanthropies. At a time of few economic opportunities elsewhere, they claimed their own homesteads and graduated from new, free coeducational colleges that provided career alternatives to marriage. In 1869, the men of the Wyoming Territory gave women the right to vote--partly to persuade

more of them to move west--but with this victory in hand, western suffragists fought relentlessly until the rest of the region followed suit. By 1914 most western women could vote--a right still denied to women in every eastern state. In *New Women in the Old West*, Winifred Gallagher brings to life the riveting history of the little-known women--the White, Black, and Asian settlers, and the Native

<p>Americans and Hispanics they displaced-- who played monumental roles in one of America's most transformative periods. Like western history in general, the record of women's crucial place at the intersection of settlement and suffrage has long been overlooked. Drawing on an extraordinary collection of research, Gallagher weaves together the striking legacy of the</p>	<p>persistent individuals who not only created homes on weather-wracked prairies and built communities in muddy mining camps, but also played a vital, unrecognized role in the women's rights movement and forever redefined the "American woman." <i>Typewriter Rodeo</i> Random House In Burying Don Imus, Michael Awkward provides the first balanced,</p>	<p>critical analysis of Imus's comments on the Rutgers women's basketball team and the public outrage they provoked. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. *Los Angeles Magazine* Greenwood A controversial sport, rodeo is often seen as emblematic of the West's reputation as a "white man's country." A

Wilder West complicates this view, showing how rodeo has been an important contact zone - a chaotic and unpredictable place of encounter that challenged expected social hierarchies. Rodeo has brought people together across racial and gender divides, creating friendships, rivalries, and unexpected intimacies. Fans made hometown cowboys, cowgirls, and

Aboriginal riders local heroes. Lavishly illustrated and based on cowboy/cowgirl biographies and memoirs, press coverage, archival records, and dozens of interviews with former and current rodeo contestants, promoters, and audience members, this creative history returns to rodeo's small-town roots to shed light on the history of social relations in Canada's

<p>western frontier.  <i>Echo Burning</i>          Houghton Mifflin Harcourt          It is estimated that Americans consume more than 25 percent of the world's oil but have control over less than 3 percent of its proven supply. This extremely unbalanced pattern of consumption makes it possible for foreign governments, corrupt political leaders, terrorist organizations, and oil</p>	<p>conglomerate s to place the citizens of the United States in a stranglehold of supply and demand. There is no greater proof of this than the direct relationship between skyrocketing gas prices and the exploding wealth of those who control the supply of oil. In <i>Black Gold Stranglehold</i>, Jerome R. Corsi and Craig R. Smith expose the fraudulent science that has been sold to the American</p>	<p>people in order to enslave them: the belief that oil is a fossil fuel and a finite resource. On the contrary, this book presents authoritative research, currently known mostly in the scientific community, that oil is not a product of decaying dinosaurs and prehistoric forests. Rather, it is a natural product of the earth. The scientific evidence cited by Corsi and Smith</p>
--	---	---

suggests that oil is constantly being produced by the earth, far below the planet's surface, and that it is brought to attainable depths by the centrifugal forces of the earth's rotation. In great detail Corsi and Smith explore the international and domestic politics of oil production and consumption. This includes the wealth and power of major oil conglomerate

s, the manipulation of world economies by oil-producing states and rogue terrorist regimes, and the political agenda of radical environmentalists and conservationists who obstruct the use of oil reserves currently controlled by the U.S. government. The authors offer an understanding of the dangerous situation America faces because its currency is no longer tied to

any precious and truly scarce metals such as gold, as it was until 1973. This situation could easily lead to the devastation of the U.S. economy if Middle Eastern countries are able to enact current plans to accept only the Euro or gold-backed currencies such as the Gold Dinar instead of the U.S. dollar as the standard currency for oil. Black Gold Stranglehold will dramatically change the debate about

oil. The significance of its message is sure to cause thoughtful people to reconsider the current dependence of the U.S. economy on imported oil. *Rodeo Queen 101* Cengage Learning The first book of its kind to provide historical and state-of-the-art perspectives on language regard. *The Story of My Life* U of Minnesota Press "Do you think you could teach Rock Hudson to talk

like you do?" The question came from famed Hollywood director George Stevens, and an affirmative answer propelled Bob Hinkle into a fifty-year career in Hollywood as a speech coach, actor, producer, director, and friend to the stars. Along the way, Hinkle helped Rock Hudson, Dennis Hopper, Carroll Baker, and Mercedes McCambridge talk like Texans for the 1956 epic film

Giant. He also helped create the character Jett Rink with James Dean, who became a best friend, and he consoled Elizabeth Taylor personally when Dean was killed in a tragic car accident before the film was released. A few years later, Paul Newman asked Hinkle to do for him what he'd done for James Dean. The result was Newman's powerful portrayal of a Texas no-good in the

Academy Award-winning film *Hud* (1963). Hinkle could—and did—stop by the LBJ Ranch to exchange pleasantries with the president of the United States. He did likewise with Elvis Presley at Graceland. Good friends with Robert Wagner, Hinkle even taught Wagner's wife Natalie Wood how to throw a rope. He appeared in numerous television series, including *Gunsmoke*, *Bonanza*,

*Dragnet*, and *Walker, Texas Ranger*. On a handshake, he worked as country music legend Marty Robbins's manager, and he helped Evel Knievel rise to fame. From his birth in Brownfield, Texas, to a family so poor "they could only afford a tumbleweed as a pet," Hinkle went on to gain acclaim in Hollywood. Through it all, he remained the salty, down-to-earth former rodeo cowboy from West Texas who could talk

his way into—or out of—most any situation. More than forty photographs, including rare behind-the-scenes glimpses of the stars Hinkle met and befriended along the way, complement this rousing, never-dull memoir.
