While investigating a man claiming to be the long-lost heir to a noble family, Veronica Speedwell gets the surprise of her life in this new adventure from the New York Times bestselling and Edgar

Award-nominated author Deanna Raybourn. London, 1889. Veronica Speedwell and her natural historian beau Stoker are summoned by Sir Hugo Montgomerie, head of Special Branch. He has a personal request on behalf of his goddaughter, Euphemia Hathaway. After years of traveling the world, her eldest brother, Jonathan, heir to Hathaway Hall, was believed to have been killed in the catastrophic eruption of Krakatoa a few years before. But now a man matching Jonathan's description and carrying his possessions has arrived at Hathaway Hall with no memory of his identity or where he has been. Could this man truly be Jonathan,

back from the dead? Or is he a devious impostor, determined to gain ownership over the family's most valuable possessions—a legendary parure of priceless Rajasthani jewels? It's a delicate situation, and Veronica is Sir Hugo's only hope. Veronica and Stoker agree to go to Hathaway Hall to covertly investigate the mysterious amnesiac. Veronica is soon shocked to find herself face-to-face with a ghost from her past. To help Sir Hugo discover the truth, she must open doors to her own history that she long believed to be shut for good.

Springer Nature
Imposters are third person DPs that are used to refer to the

speaker/writer or addressee, such as : (i) Your humble servant finds the time before our next encounter very long. (ii) This reporter thinks that the current developments are extraordinary. (iii) Daddy will be back before too long. (iv) The present author finds the logic of the reply faulty. This volume explores verbal and pronominal agreement with imposters from a cross-linguistic perspective. The central questions for any given language are: (a) How do singular and plural imposters agree with the verb? (b) When a pronoun has an imposter antecedent, what are the phi-features of the pronoun? The volume reveals a remarkable degree of variation in

the answers to these questions, but also reveals some underlying generalizations. The contributions describe imposters in Bangla, Spanish, Albanian, Indonesian, Italian, French, Romanian, Mandarin and Icelandic.

A study of pronominal agreement with imposters, third person DPs (this reporter, yours truly, my lord, Madam) that denote the speaker or addressee. Normally, a speaker uses a first person singular pronoun (in English, I, me, mine, myself) to refer to himself or herself. To refer to a single addressee, a speaker uses second person pronouns (you, yours, yourself). But

sometimes third person nonpronominal DPs are used to refer to the speaker—for example, this reporter, yours truly—or to the addressee—my lord, the baroness, Madam (Is Madam not feeling well?). Chris Collins and Paul Postal refer to these DPs as imposters because their third person exterior hides a first or second person core. In this book they study the interactions of imposters with a range of grammatical phenomena, including pronominal agreement, coordinate structures, Principle C phenomena, epithets, fake indexicals, and a property of pronominal agreement they call homogeneity. Collins and Postal conclude that traditional ideas about pronominal features (person,

number, gender), which countenance only agreement with an antecedent or the relation of the pronoun to its referent, are much too simple. They sketch elements of a more sophisticated view and argue for its relevance and explanatory power in several data realms. The fundamental proposal of the book is that a pronoun agrees with what they call a source, where its antecedent constitutes only one type of source. They argue that the study of imposters (and closely related camouflage DPs) has far-reaching consequences that are inconsistent with many current theories of anaphora.

Learn to take ownership of your success, overcome self-doubt, and banish the thought patterns that undermine your ability to feel—and act—as bright and capable as others already know you are with this award-winning book by Valerie Young. It's only because they like me. I was in the right place at the right time. I just work harder than the others. I don't deserve this. It's just a matter of time before I am found out. Someone must have made a terrible mistake. If you are a working woman, chances are this internal monologue sounds all too familiar. And you're not alone. From the high-achieving Ph.D. candidate convinced she's only been admitted to the

program because of a clerical error to the senior executive who worries others will find out she's in way over her head, a shocking number of accomplished women in all career paths and at every level feel as though they are faking it—impostors in their own lives and careers. While the impostor syndrome is not unique to women, women are more apt to agonize over tiny mistakes, see even constructive criticism as evidence of their shortcomings, and chalk up their accomplishments to luck rather than skill. They often unconsciously overcompensate with crippling perfectionism, overpreparation, maintaining a lower profile, withholding their talents and

opinions, or never finishing important projects. When they do succeed, they think, Phew, I fooled 'em again. An internationally known speaker, Valerie Young has devoted her career to understanding women's most deeply held beliefs about themselves and their success. In her decades of in-the-trenches research, she has uncovered the often surprising reasons why so many accomplished women experience this crushing self-doubt. In *The Secret Thoughts of Successful Women*, Young gives these women the solution they have been seeking. Combining insightful analysis with effective advice and anecdotes, she explains what the

impostor syndrome is, why fraud fears are more common in women, and how you can recognize the way it manifests in your life.

A personal and professional guide to the latest research on imposterism and psychological flexibility, IMPOSTER NO MORE is the professional's handbook to combating "impostor syndrome" and overcoming self-doubt to achieve career success. Dr. Jill Stoddard is a recovered imposter. For years, she was convinced that the only

reason she was accepted into a competitive grad school program was because her father knew the program director. Dr. Stoddard isn't alone in this: deep down, the majority of successful people question their professional legitimacy a good amount of the time. Why do we do this, and how can we stop? Although she's in recovery, Dr. Stoddard still struggles with feelings of imposterism. She works through them with psychological flexibility, the ability to be present with all thoughts, emotions, physical sensations, and urges, fully and without defense, while making conscious, deliberate choices based on what deeply matters to a person.

Essentially, we're not attempting to change the substance of the thoughts and feelings that naturally occur to us; instead, we change the way we relate to those thoughts and feelings, so we aren't caught up in constant battle to control them. Throughout *Imposter No More*, Dr. Stoddard lays the groundwork for understanding the imposter phenomenon; she outlines the traps professionals often fall into regarding their imposter feelings, and provides actionable steps for cultivating psychological flexibility to be able to choose bold career moves despite self-doubt and imposterism.

The third edition of this authoritative and comprehensive handbook is the definitive work on the current state of the art of Biometric Presentation Attack Detection (PAD) – also known as Biometric Anti-Spoofing. Building on the success of the previous editions, this thoroughly updated third edition has been considerably revised to provide even greater coverage of PAD methods, spanning biometrics systems based on face, fingerprint, iris, voice, vein, and signature recognition. New material is also included on major PAD competitions, important databases for research, and on the impact of recent international legislation. Valuable

insights are supplied by a selection of leading experts in the field, complete with results from reproducible research, supported by source code and further information available at an associated website. Topics and features: reviews the latest developments in PAD for fingerprint biometrics, covering recent technologies like Vision Transformers, and review of competition series; examines methods for PAD in iris recognition systems, the use of pupil size measurement or multiple spectra for this purpose; discusses advancements in PAD methods for face recognition-based biometrics, such as recent progress on detection of 3D facial

masks and the use of multiple spectra with Deep Neural Networks; presents an analysis of PAD for automatic speaker recognition (ASV), including a study of the generalization to unseen attacks; describes the results yielded by key competitions on fingerprint liveness detection, iris liveness detection, and face anti-spoofing; provides analyses of PAD in finger-vein recognition, in signature biometrics, and in mobile biometrics; includes coverage of international standards in PAD and legal aspects of image manipulations like morphing. This text/reference is essential reading for anyone involved in biometric identity

verification, be they students, researchers, practitioners, engineers, or technology consultants. Those new to the field will also benefit from a number of introductory chapters, outlining the basics for the most important biometrics. Handbook of Biometric Anti-Spoofing Simon & Schuster Books for Young Readers
This handbook explores feeling like an 'imposter' in higher education and what this can tell us about contemporary educational inequalities. Asking

why imposter syndrome matters now, we investigate experiences of imposter syndrome across social locations, institutional positions, and intersecting inequalities. Our collection queries advice to fit-in with the university, and authors reflect on (not)belonging in, with and against educational institutions. The collection advances understandings of imposter syndrome as socially situated, in relation to entrenched inequalities and their recirculation in higher education. Chapters combine creative methods and linger on the figure of the 'imposter' - wary of both individualising and celebrating imposters as lucky,

misfits, fraudsters, or failures, and critically interrogating the supposed universality of imposter syndrome. *The Family Romance of the Impostor-poet Thomas Chatterton* Taylor & Francis Taking a novel approach to the subject of leadership, this book uses its dark side as a vehicle to highlight some important leadership lessons, helping all managers to reflect on their own performance. *The Impostor Leaders* clarifies what is meant by genuine leadership, focusing on the fact that leading and managing go hand in hand. Based on this ability to consistently combine the leadership and management roles, this book describes in detail and practical terms, using

real-world examples, the range of good and bad leader-types seen in organizations today. The Leadership Wheel is also introduced as a conceptual framework to isolate eight types of leaders across four categories. Appealing to leaders and managers across industry sectors, this book's substantial analysis of bad leadership gives readers a tangible framework against which to consider their own capabilities.

Early Modern Europe was teeming with impostors. Identity theft was only one form of misrepresentation: royal pretenders, envoys from imaginary lands, religious dissimulators, cross-dressers, false Gypsies - all these caused deep anxiety, leading authorities to invent increasingly sophisticated means for unmasking deception.

One of Library Journal's Best Romances of 2018 The one you love... Robert Selby is determined to see his sister make an advantageous match. But he has two problems: the Selbys have no connections or money and Robert is really a housemaid named Charity Church. She's enjoyed every minute of her masquerade over the past six years, but she knows her pretense is nearing an end. Charity needs to see her beloved friend married well and then Robert Selby will disappear...forever.

May not be who you think... Alistair, Marquess of Pembroke, has spent years repairing the estate ruined by his wastrel father, and nothing is more important than protecting his fortune and name. He shouldn't be so beguiled by the charming young man who shows up on his doorstep asking for favors. And he certainly shouldn't be thinking of all the disreputable things he'd like to do to the impertinent scamp. But is who you need... When Charity's true nature is revealed, Alistair knows he can't marry a scandalous woman in breeches, and Charity isn't about to lace herself into a corset and play a respectable miss. Can these stubborn souls

learn to sacrifice what they've always wanted for a love that is more than they could have imagined?

Master of suspense and New York Times bestselling author Carla Neggers delivers an exhilarating page-turner where the disappearance of a federal prosecutor launches the latest high-stakes case for FBI agents Emma Sharpe and Colin Donovan. Newlyweds Emma and Colin are suspicious when prosecutor Tamara McDermott is a no-show at a Boston dinner party. Matt Yankowski, head of HIT, Emma and Colin's small, elite Boston-based team, is a friend of Tamara's, and he

needs them to find her. In London, a woman who was supposed to meet Emma's art-detective grandfather to talk about forgeries is discovered near death. Her husband, who stayed behind in Boston, has vanished. The couple's connection to Tamara adds to the puzzle. As the search for Tamara intensifies, a seemingly unrelated murder leads Emma, Colin and HIT deep into a maze of misdirection created by a clever, lethal criminal who stays one step ahead of them. As Emma draws on her expertise in art crimes and Colin on his experience as a deep-cover agent, the investigation takes a devastating turn that tests the strengths of their families and friendships as well as

their FBI colleagues as never before.
