Very Short Stories and Verses For Children By Edith Campbell The tall aunt had a very long neck; on the top of it was her head, on the top of her head she

wore a white cap. Willie used often to look up at her and think that the cap was like snow upon the mountain. She was very fond of Willie, but she had lived a great many years and was always sitting still to think them over, and she had forgotten all the games she used to know, all the stories she had read when she was little, and when Willie asked her about them, would say, "No, dear, no, I can't remember; go to the woods and play." Sometimes she would take his face between her two hands and look at him well while Willie felt quite sure that she was not thinking of him, but of someone else he did not know, and then she would kiss him, and turn away quickly, saying, "Go to the woods, dear; it is no good staying with an old woman." Then he, knowing that she wanted to be

alone, would pick up his goat and hurry away. We are delighted to publish this classic book as part of our extensive Classic Library collection. Transforming Multilateral Diplomacy provides the inside view of the negotiations that produced the UN Sustainable Development Goals (SDGs). Not only did this process mark a sea change in how the UN conducts multilateral diplomacy, it changed the way the UN does its business. This book tells the story of the people, issues, negotiations, and paradigm shifts that unfolded through the Open Working Group (OWG) on SDGs and the subsequent negotiations on the 2030

Sustainable Development Agenda, from the unique point of view of Ambassador Macharia Kamau, and other key participants from governments, the UN Secretariat, and civil society.

In the grim nation of Nidal, carefully chosen children are trained to practice dark magic, summoning forth creatures of horror and shadow for the greater glory of the Midnight Lord. Isiem is one such student, a promising young shadowcaster whose budding powers are the envy of his peers. Upon coming of age, he's dispatched on a diplomatic mission to the mountains of the Devil's Perch, where he's meant to assist the armies of devil-worshipping Cheliox in clearing out a tribe of monstrous winged humanoids. Yet as the body count rises and Isiem comes face to face with the people he's exterminating, lines begin to blur, and the shadowcaster must ask himself who the real monsters are... - From Liane Merciel, critically acclaimed

 "The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main

idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that required them to sacrifice something that was precious to them.

Edgar Allan Poe's *The Murders in the Rue Morgue* represents the beginning of crime fiction. The mystery was first published in *Graham's Magazine* in 1841 and has been recognized as the first detective story. Poe referred to it as one of his "tales of ratiocination". As the first fictional detective, Poe's Dupin displays many traits which became literary conventions in subsequent fictional detectives including Sherlock Holmes and Hercule Poirot. Many later characters, for example, follow Poe's model of the brilliant detective, his

personal friend who serves as narrator, and the final revelation being presented before the reasoning that leads up to it. Dupin himself reappears in *The Mystery of Marie Rogêt* and *The Purloined Letter*.

Inspired by an experiment on Twitter, these 300 moving stories are no bigger than a sentence or two, on themes like love, death, and family. In this one-of-a-kind collection, author Sean Hill has crafted hundreds of engaging stories that conjure an entire novel in just a sentence or two. Sometimes sad, often humorous and always creative, these tales touch on a wide range of life experiences from romance and family to death and sex. Nana rocked in her old wooden rocking chair. "Timmy, you have always been my favorite," she said. He

looked at her. "Nana, I'm Bobby." Read your diary, discovered your secret. I thought I loved you, but now I'm not sure. Don't know what to do, you look so human. Clowning was Daryl's profession, cooking was his passion. Stella thought he was perfect. She liked to laugh and never learned to cook. Alex bought Sharon a ring for Valentine's Day, which she sold to buy the gun that stopped him from loving her. In 2009, Sean Hill combined his love of writing and technology by creating @VeryShortStory, a Twitter feed where he interacts with his readers and shares his 140-character stories. Praise for Very Short Stories "Some are touching, some ring true, but most are laugh-out-loud funny." —Seattle Times "The book is a treasure-trove of fascinating exploration

There was once a little boy called Willie. I never knew his other name, and as he lived far off behind the mountain, we cannot go to inquire. He had fair hair and blue eyes, and there was something in his face that, when you had looked at him, made you feel quite happy and

rested, and think of all the things you meant to do by-and-by when you were wiser and stronger. He lived all alone with the tall aunt, who was very rich, in the big house at the end of the village. Every morning he went down the street with his little goat under his arm, and the village folk looked after him and said, "There goes Master Willie." The tall aunt had a very long neck; on the top of it was her head, on the top of her head she wore a white cap. Willie used often to look up at her and think that the cap was like snow upon the mountain. She was very fond of Willie, but she had lived a great many years and was always sitting still to think them over, and she had forgotten all the games she used to know, all the stories she had read when she was little, and when Willie asked her

The Gingerbread Boy Houghton Mifflin
Harcourt
PREFACE Why must we confine the
reading of our children to the older

literary classics? This is the question
asked by an ever-increasing number of
thoughtful teachers. They have no wish
to displace or to discredit the classics.
On the contrary, they love and revere
them. But they do wish to give their
pupils something additional, something
that pulses with present life, that is
characteristic of to-day. The children,
too, wonder that, with the great literary
outpouring going on about them, they
must always fill their cups from the
cisterns of the past. The short story is
especially adapted to supplement our
high-school reading. It is of a piece with
our varied, hurried, efficient American
life, wherein figure the business man's
lunch, the dictagraph, the telegraph, the
telephone, the automobile, and the
railway "limited." It has achieved high

art, yet conforms to the modern demand that our literature—since it must be read with despatch, if read at all—be compact and compelling. Moreover, the short story is with us in almost overwhelming numbers, and is probably here to stay. Indeed, our boys and girls are somewhat appalled at the quantity of material from which they must select their reading, and welcome any instruction that enables them to know the good from the bad. It is certain, therefore, that, whatever else they may throw into the educational discard when they leave the high school, they will keep and use anything they may have learned about this form of literature which has become so powerful a factor in our daily life.
