"We are all aware that in the 2030s discipline has returned to public and private life. Schoolmistresses, mothers and mistresses of domestic maidservants have long felt the need of an authoritative guide to the correction and chastisement of the young ladies under their care. That guide is now available in the form of *The Female Disciplinary Manual*." -- from front flap of dust jacket.

*Changing Sentiments and the Magdalen Hospital* Routledge

Disciplining Girls writes an important chapter in the history of American, women's, and children's literature, enriching previous work about the history of discipline in America.

*Consumption: Disciplinary approaches to consumption* University of Illinois Press

This book uses mixed methods to extend the concept of "wellbeing stocks" to

refer to dynamic ways of working with others. It addresses metaphors and praxis for weaving together strands of experience. The aim of the wellbeing stocks concept is to enable people to re-evaluate economics and to become more aware of the way in which we neglect social and environmental aspects of life. The pursuit of profit at the expense of people and the environment is a central problem for democracy and governance. The vulnerability of cities is a symptom of the lack of balance between individual and collective needs. This book explores the potential for cities, specifically in the regions of Indonesia, Africa, and Australia, to become more productive as sites for food and water security through more creative use of technology. It highlights the need for partners that see food and security feasible at the household level if supports are provided at the community, national and international level. The book examines how these regions are affected by demographics, climate change and people movements, but also explores ways to establish an effective cultural ecosystem management.

Elizabeth Pleck's *Domestic Tyranny* chronicles the rise and demise of legal, political, and medical campaigns against domestic violence from colonial times to the present. Based on in-depth research into court records, newspaper accounts, and autobiographies, this book argues that the single most consistent barrier to reform against domestic violence has been the Family Ideal--that is, ideas about family privacy, conjugal and parental rights, and family stability. This edition features a new introduction surveying the multinational and cultural

themes now present in recent historical writing about family violence.

A compelling look at the crisis of disadvantaged women This powerful document takes a sobering look at the phenomenon of marginalized women pushed to the edges of society, holding on with the barest of hope and extraordinary bravery. Handicapped by the increasing societal inequality they face as an everyday fact of life, these women (and in many cases, their children) have been disconnected from the mainstream for reasons of age, race, gender, health, incarceration, domestic abuse, unwanted pregnancy, unemployment, and economic circumstance. They are poor in an affluent society, powerless in a powerful nation, and the suffering caused by their exclusion is poignant and troubling. Eloquently illustrated with poetry, art, and prose created by marginalized women, *Women at the Margins: Neglect, Punishment, and Resistance* makes a compelling argument for social change. The book offers a no-holds-barred look at how economic restructuring, welfare reform, neo-conservative ideology, and institutional exclusion have locked women into subservient, substandard roles, stripping them of their citizenship and rendering them expendable. Diverse authors track the life cycle of marginalized women, from teenage pregnancy to the loneliness of older women in poverty or prison. *Women at the Margins: Neglect, Punishment, and Resistance* addresses: the effects of welfare reform the forgotten group: women in prison and jail low-income women and housing women marginalized by substance abuse, poverty, and incarceration teenage

pregnancy children and their incarcerated mothers recidivism and reintegration women, law, and the justice system and much more! *Women at the Margins: Neglect, Punishment, and Resistance* acknowledges the long history of the inequality faced by women living in exclusion but focuses on the present with a hopeful but realistic eye toward the future. It is an indispensable resource for sociology, social work, legal and penal system professionals, and academics, and an essential read for everyone.

(Originally titled *Discipline Desired*) ALL CHARACTERS ARE PURE FICTION The content however is mostly fact. . . . . Lisa's marriage is heading for the rocks and there is nothing she can think of to avoid the impending crash of divorce until she discovers *Domestic Discipline*. Her life and marriage are transformed when she asks her husband to assume the role of the Head of the Household. To hold her accountable to a set of agreed upon rules and to discipline her whenever she breaks them. Is she crazy? A question many, who willingly put themselves in the same position, ask and to a one, answer NO. It works, it really works. Follow Lisa and John as they embark on their journey into *Discipline and Punishment* and judge for yourself. *Discipline Desired* is a fictional tale, based upon factual advice, information and experiences from real men and women living the *Domestic Discipline* lifestyle. In over 90% of the men and women I spoke with, the *Taken in Hand*, (most often, but not always the female partner) was the person who suggested the idea to their spouse. The *TiH* would often suggest/request the rules they have in place. Those living the

Domestic Discipline lifestyle would not choose to go back to their old way of doing things. In my conversations, the inclusion of Domestic Discipline in all cases improved their marriage/relationship and in many cases saved their marriage. Discipline Desired is both a great read and a introductory guide to Domestic Discipline. This book is for mature audiences only.

Troublesome Women UBC Press

The surprising, often fiercely feminist, always fascinating, yet barely known, history of home economics. The term "home economics" may conjure traumatic memories of lopsided hand-sewn pillows or sunken muffins. But common conception obscures the story of the revolutionary science of better living. The field exploded opportunities for women in the twentieth century by reducing domestic work and providing jobs as professors, engineers, chemists, and businesspeople. And it has something to teach us today. In the surprising, often fiercely feminist and always fascinating *The Secret History of Home Economics*, Danielle Dreilinger traces the field's history from Black colleges to Eleanor Roosevelt to Okinawa, from a Betty Crocker brigade to DIY techies. These women—and they were mostly women—became chemists and marketers, studied nutrition, health, and exercise, tested parachutes, created astronaut food, and took bold steps in childhood development and education. Home economics followed the currents of American culture even as it shaped them. Dreilinger brings forward the racism within the movement along with the strides taken by women of color who were influential leaders and innovators. She also looks at the personal lives of

home economics' women, as they chose to be single, share lives with other women, or try for egalitarian marriages. This groundbreaking and engaging history restores a denigrated subject to its rightful importance, as it reminds us that everyone should learn how to cook a meal, balance their account, and fight for a better world.

Experiences of Punishment, Abuse and Justice by Women and Families JHU Press  
Women and families within the criminal justice system (CJS) are increasingly the focus of research and this book considers the timely issues concerning experiences of punishment, abuse and justice. With insights from frontline practice and from the lived experiences of women, the collection examines prison experiences in a post-COVID-19 world, domestic violence and the successes and failures of family support. A companion to the first edited collection, *Critical Reflections on Women, Family, Crime and Justice*, the book sheds new light on the challenges and experiences of women and families who encounter the CJS. Accessible to both academics and practitioners and with real-world policy recommendations, this collection demonstrates how positive change can be achieved.

Exploring Regimes of Discipline  
Princeton University Press

The pursuit and practice of discipline have become near ubiquitous elements of contemporary social life and parlance, as discipline has become a commonplace and ever sought-after social technology. From the celebrated "discipline of the market" proclaimed by neo-liberal politicians, to self-actualizing experiences of embodied discipline proffered by martial arts instructors, this volume showcases highly varied and complex disciplinary practices and

relationships in a set of ethnographic studies. Interrogating the respective fields of work, religion, governance, leisure, education and child rearing, together the essays in this volume explore and offer new ways of thinking about discipline in everyday life.

This edited volume is concerned with the relationship between three key concepts – identity, belonging and human rights – and explores them both by engaging in theoretical analysis and through more practical contributions.

**Disciplines of a Godly Woman** Univ. of Manitoba Press

Women in Victorian England wore jewelry made from each other's hair and wrote poems celebrating decades of friendship. They pored over magazines that described the dangerous pleasures of corporal punishment. A few had sexual relationships with each other, exchanged rings and vows, willed each other property, and lived together in long-term partnerships described as marriages. But, as Sharon Marcus shows,

these women were not seen as gender outlaws. Their desires were fanned by consumer culture, and their friendships and unions were accepted and even encouraged by family, society, and church. Far from being sexless angels defined only by male desires, Victorian women openly enjoyed looking at and even dominating other women. Their friendships helped realize the ideal of companionate love between men and women celebrated by novels, and their unions influenced politicians and social thinkers to reform marriage law. Through a close examination of literature, memoirs, letters, domestic magazines, and political debates, Marcus reveals how relationships between women were a crucial component of femininity. Deeply researched, powerfully argued, and filled with original readings of familiar and surprising sources, *Between Women* overturns everything we thought we knew about Victorian women and the history of marriage and family life. It offers a new paradigm for theorizing gender and sexuality--not just in the Victorian period, but in our own.

**Mixed Methods and Cross Disciplinary Research** BRILL

This book illuminates the origins and development of violence as a social issue by examining a critical period in the evolution of attitudes towards violence. It explores the meaning of violence through an accessible mixture of detailed empirical research and a broad survey of cutting-edge historical theory. The author discusses topics such as street fighting, policing, sports, community discipline and domestic violence and shows how the nineteenth century established enduring patterns in views of violence. *Violence and Crime in Nineteenth-Century England* will be

essential reading for advanced students and researchers of modern British history, social and cultural history and criminology.

In this groundbreaking book, Ken Parille seeks to do for nineteenth-century boys what the past three decades of scholarship have done for girls: show how the complexities of the fiction and educational materials written about them reflect the lives they lived. While most studies of nineteenth-century boyhood have focused on post-Civil War male novelists, Parille explores a broader archive of writings by male and female authors, extending from 1830-1885. *Boys at Home* offers a series of arguments about five pedagogical modes: play-adventure, corporal punishment, sympathy, shame, and reading. The first chapter demonstrates that, rather than encouraging boys to escape the bonds of domesticity, scenes of play in boys' novels reproduce values associated with the home. Chapter 2 argues that debates about corporal punishment are crucial sources for the culture's ideas about gender difference and pedagogical practice. In chapter 3, "The Medicine of Sympathy," Parille examines the affective nature of mother-daughter and mother-son bonds, emphasizing the special difficulties that "boy-nature" posed for women. The fourth chapter uses boys' conduct literature and Louisa May Alcott's *Little Women* – the preeminent chronicle of girlhood in the century – to investigate not only Alcott's fictional representations of shame-centered discipline but also pervasive cultural narratives about what it means to "be a man." Focusing on works by Lydia Sigourney and Francis Forrester, the final chapter considers arguments about the effects that

fictional, historical, and biographical narratives had on a boy's sense of himself and his masculinity. *Boys at Home* is an important contribution to the emerging field of masculinity studies. In addition, this provocative volume brings new insight to the study of childhood, women's writing, and American culture. Ken Parille is assistant professor of English at East Carolina University. His articles have appeared in *Children's Literature*, *Tulsa Studies in Women's Literature*, *Papers on Language and Literature*, and *Children's Literature Association Quarterly*.

Based on extensive fieldwork in Calcutta, this book provides the first ethnography of how middle-class women in India understand and experience economic change through transformations of family life. It explores their ideas, practices and experiences of marriage, childbirth, reproductive change and their children's education, and addresses the impact that globalization is having on the new middle classes in Asia more generally from a domestic perspective. By focusing on maternity, the book explores subjective understandings of the way intimate relationships and the family are affected by India's liberalization policies and the neo-liberal ideologies that accompany through an analysis of often competing ideologies and multiple practices. And by drawing attention to women's agency as wives, mothers and grandmothers within these new frameworks, *Domestic Goddesses* discusses the experiences of different age groups affected by these changes. Through a careful analysis of women's narratives, the domestic sphere is shown to represent the key site for the remaking of Indian middle-class citizens

in a global world.

**Keeping the Nation's House** Springer  
Drawing from a wide spectrum of literary and autobiographical texts from the past and present, such as Jane Austen's *Emma* and Tina Turner's *I, Tina*, Frances L. Restuccia moves from a psychoanalytic explanation of the formation of women melancholics to the cultural co-construction of battered women.

*Identity, Belonging and Human Rights: A Multi-Disciplinary Perspective* Routledge

This book traces the lived experiences of women lawbreakers in the state of Pennsylvania from 1820 to 1860 through the records of more than six thousand criminal court cases. By following these women from the perpetration of their crimes through the state's efforts to punish and reform them, Erica Rhodes Hayden places them at the center of their own stories. Women constituted a small percentage of those tried in courtrooms and sentenced to prison terms during the nineteenth century, yet their experiences offer valuable insight into the era's criminal justice system. Hayden illuminates how criminal punishment and reform intersected with larger social issues of the time, including questions of race, class, and gender, and reveals how women prisoners actively influenced their situation despite class disparities. Hayden's focus on recovering the individual experiences of women in the criminal justice system across the state of Pennsylvania marks a significant shift from studies that focus on the structure and leadership of penal institutions and reform organizations in urban centers. *Troublesome Women* advances our understanding of female crime and punishment in the antebellum period and challenges preconceived notions of nineteenth-century

womanhood. Scholars of women's history and the history of crime and punishment, as well as those interested

in Pennsylvania history, will benefit greatly from Hayden's thorough and fascinating research.
