"Artificial intelligence (AI) and big data promise to help reshape the global order. For decades, most political observers believed that liberal democracy offered the only plausible future pathways for big, industrially sophisticated countries to make their citizens rich. Now, by allowing governments to monitor, understand, and control their citizens far more effectively than ever before, AI offers a plausible way for big, economically advanced countries to make their citizens rich while maintaining control over them--the first since the end of the Cold War. That may help fuel and shape renewed international competition between types of political regimes that are all becoming more "digital." Just as competition between liberal democratic, fascist, and communist social systems defined much of the twentieth century, how may the struggle between digital liberal democracy and digital authoritarianism define and shape the twenty-first? This work highlights several key areas where AI-related technologies have clear implications for globally integrated strategic planning and requirements development"--

Healthcare decision makers in search of reliable information that compares health interventions increasingly turn to systematic reviews for the best summary of the evidence. Systematic reviews identify, select, assess, and synthesize the findings of similar but separate studies, and can help clarify what is known and not known about the potential benefits and harms of drugs, devices, and other healthcare services. Systematic reviews can be helpful for clinicians who want to integrate research findings into their daily practices, for patients to make well-informed choices about their own care, for professional medical societies and other organizations that develop clinical practice guidelines. Too often systematic reviews are of uncertain or poor quality. There are no universally accepted standards for developing systematic reviews leading to variability in how conflicts of interest and biases are handled, how evidence is appraised, and the overall scientific rigor of the process. In *Finding What Works in Health Care* the Institute of Medicine (IOM) recommends 21 standards for developing high-quality systematic reviews of comparative effectiveness research. The standards address the entire systematic review process from the initial steps of formulating the topic and building the review team to producing a detailed final report that synthesizes what the evidence shows and where knowledge gaps remain. *Finding What Works in Health Care* also proposes a framework for improving the quality of the science underpinning systematic reviews. This book will serve as a vital resource for both sponsors and producers of systematic reviews of comparative effectiveness research.

Hollywood Heroines Julian Healey

Born on December 3rd? You're an ambitious, hardworking "idea person" and a dynamic leader. Born on December 14th? You're the "traveling salesperson" of the zodiac and a gifted marketer. All Sagittarians are charming, intelligent, and adventure-seeking, but which day of the month you're born on can determine the way in which you use those traits to your best advantage. In this exciting new book, master astrologer Phyllis Vega gives a detailed analysis for each birthday in the year, combining astrology and numerology to paint a true picture of the characteristics, desires, and destinies of people born on that day. If you were born October 5th, you're a skilled negotiator with a gift for making money. But if you were born just four days later, you're a compassionate dreamer with spiritual inclinations. Aries is the sign of the determined ram, but if you were born on April 7th,

you are idealistic and inspiring.

Powerhouse Alpha Edition

The endangered and dangerous female figures of "Rebecca", of "Jagged Edge" and "What Lies Beneath" have a deserved and endures fascination. Helen Hanson re-examines these gothic heroines of Hollywood and their meanings, in two of Hollywood's key generic cycles, film noir and the female gothic film. Starting at the beginning, with the origin of these cycles and the ways in which they represented women in the American film industry and culture of the 1940s, she traces their revival in neo-noir and neo-gothic films from the 1980s to the present. She also places the female figures of the femme fatale, female investigator and gothic heroine within the shifting contexts of the film industry and debates in feminist film criticism. Hanson examines a wide range of films from both periods, including 'Suspicion', 'Gaslight' and 'Pacific Heights', and gives particular attention to their presentation of female stories, actions and perspectives. She reveals a diversity of female figures, representations and actions in film noir and the female gothic film, and argues that these women are part of a negotiation of female identities, desires and roles across a long historical period. "Hollywood Heroines" therefore offers us new ways of thinking about classic and contemporary Hollywood heroines, and about the interrelationships of gender and genre.

Sustainability, Stakeholder Governance, and Corporate Social Responsibility John Wiley & Sons

This textbook provides a state-of-the-art reference in the rapidly changing field of hernia surgery. With contributions by key opinion leaders in the field, this book describes the latest trends and detailed technical modifications for both routine and complex hernias. The reader will gain unique insights into robotic and laparoscopic repairs, anterior and posterior component separations, reconstructions in the setting of contamination, enterocutaneous fistulas and loss of abdominal domain. Important contributions from key reconstructive plastic surgeons detail modern trends on how to deal with complex skin and soft tissue challenges. The textbook provides unparalleled step-by-step instructions to perform both routine and complex repairs by incredible illustrations, intra-operative color photographs and a unique video collection of procedures performed by today's top hernia surgeons. As a comprehensive and most up-to-date reference to modern treatment algorithms, trends in prosthetic science and technique selections, *Hernia Surgery: Current Principles* will be an invaluable resource to all residents and practicing general, plastic, and trauma surgeons to help them succeed in the field of Hernia surgery.

"The Hollywood memoir that tells all . . . Sex. Drugs. Greed. Why, it sounds just like a movie."—The New York Times Every memoir claims to bare it all, but Julia Phillips's actually does. This is an addictive, gloves-off exposé from the producer of the classic films *The Sting*, *Taxi Driver*, and *Close Encounters of the Third Kind*—and the first woman ever to win an Academy Award for Best Picture—who made her name in Hollywood during the halcyon seventies and the yuppie-infested eighties and lived to tell the tale. Wickedly funny and surprisingly moving, *You'll Never Eat Lunch in This Town Again* takes you on a trip through the dream-manufacturing capital of the world and into the vortex of drug addiction and rehab on the arm of one who saw it all, did it all, and took her leave. Praise for *You'll Never Eat Lunch in This Town Again* "One of the most honest books ever written about one of the most dishonest towns ever created."—The Boston Globe "Gossip too hot for even the National Enquirer . . . Julia Phillips is not so much Hollywood's Boswell as its Dante."—Los Angeles Magazine "A blistering look at La La Land."—USA Today "One of the nastiest, tastiest tell-alls in showbiz history."—People

Open World Learning Routledge

The former good girl who became the star of Deep Throat tells the horrifying true story of her life on and off camera in this shocking tell-all memoir. Linda Boreman was just twenty-one when she met Chuck Traynor, the man who would change her life. Less than two years later, the girl who wouldn't let her high school dates get past first base was catapulted to fame as an adult film superstar. Linda Boreman of Yonkers, New York, had become Linda Lovelace. The unprecedented success of Deep Throat made pornography popular with mainstream audiences and made Lovelace a household name. But nobody, from the A-list celebrities who touted the movie to the audiences that lined up to see it, knew the truth about what went on behind the scenes. Taken prisoner by her sado-masochistic manager, Linda was forced into a marriage of savage beatings, hypnotism, and rape. She was terrorized into prostitution at gunpoint and forced to perform unspeakable perversions on film. Years later, when Linda came out of hiding to tell her story, the revelations rocked the porn industry in ways that made her fear for her life.

Artificial Intelligence, China, Russia, and the Global Order Johns Hopkins University Press

True North shows how anyone who follows their internal compass can become an authentic leader. This leadership tour de force is based on research and first-person interviews with 125 of today's top leaders—with some surprising results. In this important book, acclaimed former Medtronic CEO Bill George and coauthor Peter Sims share the wisdom of these outstanding leaders and describe how you can develop as an authentic leader. True North presents a concrete and comprehensive program for leadership success and shows how to create your own Personal Leadership Development Plan centered on five key areas: Knowing your authentic self Defining your values and leadership principles Understanding your motivations Building your support team Staying grounded by integrating all aspects of your life True North offers an opportunity for anyone to transform their leadership path and become the authentic leader they were born to be. Personal, original, and illuminating stories from Warren Bennis, Sir Adrian Cadbury, George Shultz (former U.S. secretary of state), Charles Schwab, John Whitehead (Cochairman, Goldman Sachs), Anne Mulcahy (CEO, Xerox), Howard Schultz (CEO, Starbucks), Dan Vasella (CEO, Novartis), John Brennan (Chairman, Vanguard), Carol Tome (CFO, Home Depot), Donna Dubinsky (CEO/cofounder, Palm), Alan Horn (President, Warner Brothers), Ann Moore (CEO, Time, Inc.) and many others illustrate the transitions that shape the type of leaders who will thrive in the 21st century. Bill George (Cambridge, MA) has spent over 30 years in executive leadership positions at Litton, Honeywell, and Medtronic. As CEO of Medtronic, he built the company into the world's leading medical technology company as its market capitalization increased from \$1.1 billion to \$60 billion. Since 2004, he has been a professor at the Harvard Business School. His 2004 book *Authentic Leadership* (0-7879-7528-1) was a *BusinessWeek* bestseller. Peter Sims (San Francisco, CA) established "Leadership Perspectives," a course on leadership development at the Stanford Graduate School of Business and cofounded the London office of Summit Partners, a leading investment firm. Their Web site is www.truenorthleaders.com.

The Art of Comedy Simon and Schuster

"Magisterial. ... A must read for anyone who wants to work in Hollywood or just know how Hollywood works." — *The Hollywood Reporter* A *New York Times* bestseller, now updated with an afterword and exclusive new material From the #1 bestselling author behind acclaimed oral histories of Saturday Night Live and ESPN comes "the most hotly anticipated book [in decades]" (*Variety*): James Andrew Miller's irresistible insider chronicle of the modern entertainment industry, told through the epic story of Creative Artists Agency (CAA)—the ultimate power player that has represented the world's biggest stars and shaped the landscape of film, television, comedy, music, and sports. Started in 1975, when five bright and brash upstarts left creaky William Morris to form their own innovative talent agency, CAA would come to revolutionize Hollywood, representing everyone from Tom Cruise, Meryl Streep, Robert De Niro, and Steven Spielberg to Jennifer Lawrence, J.J. Abrams, Will Smith, and Brad Pitt. Over the next decades its tentacles would spread aggressively into sports, advertising, and digital media. Powerhouse is the fascinating, no-holds-barred saga of that ascent. Drawing on unprecedented and exclusive access to the men and women who built and battled with CAA—including co-founders Michael Ovitz and Ron Meyer and rivals like Ari Emanuel of William Morris Endeavor—as well as the stars themselves, Miller spins a unique and unforgettable tale of brilliance, ambition, betrayal, and outrageous success.

True North Bloodlines of the Illuminati

Kafka on the Shore displays one of the world's great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami unfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

Written and edited by leading international authorities in the field, this book provides an in-depth review of knowledge of tuberculosis of the central nervous system, with emphasis on clinical, diagnostics, and therapeutic features. Tuberculosis, one of the most lethal diseases in human history, still poses a serious threat in the world together with economic and social problems, although a great progress in the fight against this infectious disease in the last century. It covers the full range of tuberculosis of central nervous system and the chapters are organized into six sections: (1) the cranial; (2) the spinal; and (3) the peripheral portions of the nervous system; followed by (4) a section on the laboratory studies in tuberculosis; (5) a section on medical and surgical therapy; and (6) further insights into tuberculosis. This comprehensive reference book will be an ideal source for neurosurgeons, neurologists and specialists upon infectious diseases seeking both basic and more sophisticated information and surgical procedures relating to the complications associated with tuberculosis involving the spine, brain and peripheral nerves.

The Dinosaur Heresies Emerald Group Publishing

This book provides state-of-the-art contemporary research insights into key applications and processes in open world learning. Open world learning seeks to understand access to education, structures, and the presence of dialogue and support systems. It explores how the application of open world and educational technologies can be used to create opportunities for open and high-quality education. Presenting ground-breaking research from an award winning Leverhulme doctoral training programme, the book provides several integrated and cohesive perspectives of the affordances and limitations of open world learning. The chapters feature a wide range of open world learning topics, ranging from theoretical and methodological discussions to empirical demonstrations of how open world learning can be effectively implemented, evaluated, and used to inform theory and practice. The book brings together a range of innovative uses of technology and practice in open world learning from 387,134 learners and educators learning and working in 136 unique learning contexts across the globe and considers the enablers and disablers of openness in learning, ethical and privacy implications, and how open world learning can be used to foster inclusive approaches to learning across educational sectors, disciplines and countries. The book is unique in exploring the complex, contradictory and multi-disciplinary nature of open world learning at an international level and will be of great interest to academics, researchers, professionals, and policy makers in the field of education technology, e-learning and digital education.
