**School Record** Rowman & Littlefield Publishers

This book summary and analysis was created for individuals who want to extract the essential contents and are too busy to go through the full version. This book is not intended to replace the original book. Instead, we highly encourage you to buy the full version. Ron Chernow creates the first full-length biography of Alexander Hamilton in decades. He shares the story of a man who faced all challenges in order to create and inspire newborn America. Historian, Joseph Ellis, Alexander Hamilton is "a robust full-length portrait, in my view the best ever written, of the most brilliant, charismatic, and dangerous founder of them all." Of all the founding figures in American history, Alexander has been the most hotly debated and grossly misunderstood. Chernow's biography sets the information straight in creating a picture of how Hamilton had countless sacrifices in order to make political, financial, and economic changes to achieve the greatness that America is today. Chernow shares the early life of Hamilton from an illegitimate, largely self-taught orphan from the Caribbean, taking America by storm and rising to George Washington's side in the Continental Army, founding the Bank of New York, and becoming the Treasury Secretary of the United States. It has been a longstanding view that America's birth had been the triumph of Jefferson,

but Chernow creates a whole new perspective from a man whose great vision was motivated not merely by self-interest but by a passion for patriotism and a stubborn will to create the foundations of American greatness. The biography by Chernow illustrates a more humanistic view of Hamilton—from his birth, intimate relationships, and feuds to his publicized affair to his loving marriage to his loyal wife Eliza. Never before had there been a more poignant and vivid account of Hamilton's famous and mysterious death in a duel with Aaron Burr in July 1804. Not only does the book provide a portrait of Hamilton and his life, but the story of the birth of America around the lives of its most central figures. Alexander Hamilton's life reminds the readers of the purpose and vision behind the American heritage. Wait no more, take action and get this book now!

*Financial Founding Fathers* Basic Books  
The man who would become Ireland's beloved patron saint confronts his destiny during the tumultuous Dark Ages in this vibrant, enthralling novel In 410 CE, arrogant sixteen-year-old Magonus Sucatus Patricius denounces Christianity as a religion for cowards when the Roman legions withdraw, leaving Britain vulnerable to raiders from the west. Determined to wield a sword despite being the grandson of a priest, the affluent young man is taken captive by barbarians and sold into slavery to a cruel Irish king. On a mountaintop in Eire, a shepherd strips him of his grand Roman name and calls him Padraic, marking him a man of no consequence. Set against the magnificent backdrop of ancient Ireland and based on available

historical facts, Saint Patrick's Confession, and Celtic myth, this gripping novel follows Patrick as he finds his faith while fighting to escape bondage in Eire. Friendship with a king, love for a queen, and enmity with the druids who fear his God will embroil him in a civil war in a land from which he will struggle to flee—only to be called to return.

The #1 New York Times bestseller, and the inspiration for the hit Broadway musical *Hamilton!* Pulitzer Prize-winning author Ron Chernow presents a landmark biography of Alexander Hamilton, the Founding Father who galvanized, inspired, scandalized, and shaped the newborn nation. "Grand-scale biography at its best—thorough, insightful, consistently fair, and superbly written . . . A genuinely great book." —David McCullough "A robust full-length portrait, in my view the best ever written, of the most brilliant, charismatic and dangerous founder of them all." —Joseph Ellis Few figures in American history have been more hotly debated or more grossly misunderstood than Alexander Hamilton. Chernow's biography gives Hamilton his due and sets the record straight, deftly illustrating that the political and economic greatness of today's America is the result of Hamilton's countless sacrifices to champion ideas that were often wildly disputed during his time. "To repudiate his legacy," Chernow writes, "is, in many ways, to repudiate the modern world." Chernow here recounts Hamilton's turbulent life: an illegitimate, largely self-taught orphan from the Caribbean, he came out of nowhere to take America by storm, rising to become George Washington's aide-de-camp in

the Continental Army, coauthoring *The Federalist Papers*, founding the Bank of New York, leading the Federalist Party, and becoming the first Treasury Secretary of the United States. Historians have long told the story of America's birth as the triumph of Jefferson's democratic ideals over the aristocratic intentions of Hamilton. Chernow presents an entirely different man, whose legendary ambitions were motivated not merely by self-interest but by passionate patriotism and a stubborn will to build the foundations of American prosperity and power. His is a Hamilton far more human than we've encountered before—from his shame about his birth to his fiery aspirations, from his intimate relationships with childhood friends to his titanic feuds with Jefferson, Madison, Adams, Monroe, and Burr, and from his highly public affair with Maria Reynolds to his loving marriage to his loyal wife Eliza. And never before has there been a more vivid account of Hamilton's famous and mysterious death in a duel with Aaron Burr in July of 1804. Chernow's biography is not just a portrait of Hamilton, but the story of America's birth seen through its most central figure. At a critical time to look back to our roots, Alexander Hamilton will remind readers of the purpose of our institutions and our heritage as Americans. 9780143034759

*Alexander Graham Bell* Young Patriots Series

In this elegant collection, Donald R. Hickey and Connie D. Clark bring together enlightening, important, and amusing selections from Hamilton's speeches, published writings and personal letters. As we come to understand his thoughts on subjects as diverse as the Constitution, love, war, liberty and honor, we find that his words

are often as applicable in our own time as they were in his.

Alexander Hamilton, Revolutionary

A biography of one of this nation's most controversial founders explores his character, personal life, and political career

DK Eyewitness Travel Guide Caribbean  
Penguin

The America that Alexander Hamilton knew was largely agricultural and built on slave labor. He envisioned something else: a multi-racial, urbanized, capitalistic America with a strong central government. He believed that such an America would be a land of opportunity for the poor and the newcomers. But Hamilton's vision put him at odds with his archrivals who envisioned a pastoral America of small towns, where governments were local, states would control their own destiny, and the federal government would remain small and weak. The disputes that arose during America's first decades continued through American history to our present day. Over time, because of the systems Hamilton set up and the ideas he left, his vision won out. Here is the story that epitomizes the American dream—a poor immigrant who made good in America. In the end, Hamilton rose from poverty through his intelligence and ability, and did more to shape our country than any of his contemporaries. Related subjects and concepts discussed in the book include: Law and Legal Concepts Due process Bill of Rights Freedom of Speech and the Press Originalism / nonoriginalism (theories of Constitutional interpretation) Government Checks and Balances Democracy Electoral College Republic Financial Concepts Capitalism Credit Inflation Interest Mercantilism Securities: Stocks and Bonds Tariffs

Taxes Miscellaneous Demagogues  
Duelling Pastoralism About the Series  
The Making of America series traces the constitutional history of the United States through overlapping biographies of American men and women. The debates that raged when our nation was founded have been argued ever since: How should the Constitution be interpreted? What is the meaning, and where are the limits of personal liberty? What is the proper role of the federal government? Who should be included in "we the people"? Each biography in the series tells the story of an American leader who helped shape the United States of today.

DK Eyewitness Travel Guide: Caribbean will lead you straight to the best attractions this island paradise has to offer. Covering more than 130 Caribbean islands, this updated guide explores everything from Harrison's Cave in Barbados to Nelson's Dockyard in Antigua, as well as the most pristine beaches and the best islands for history, architecture, and hiking. Whether you travel via cruise or independently, DK Eyewitness Travel Guide: Caribbean is the ideal companion, providing insider tips such as the best places to dive, snorkel, sail, and play golf. Customized tour routes will lead you to the must-see sights like the Blue Mountains, Jamaican rum distilleries, and rain forests of Martinique. Discover DK Eyewitness Travel Guide: Caribbean. + Detailed itineraries and "don't-miss" destination highlights at a glance. + Illustrated cutaway 3-D drawings of important sights. + Floor plans and guided visitor information for major museums. + Guided walking tours, local drink and dining specialties to try, things to do,

and places to eat, drink, and shop by area. + Area maps marked with sights. + Detailed city maps include street finder indexes for easy navigation. + Insights into history and culture to help you understand the stories behind the sights. + Hotel and restaurant listings highlight DK Choice special recommendations. With hundreds of full-color photographs, hand-drawn illustrations, and custom maps that illuminate every page, DK Eyewitness Travel Guide: Caribbean truly shows you this island region as no one else can.

**Citizen Hamilton** Simon and Schuster Describes print and non-print materials for use in studying the northeastern states in grades K-8.

Alexander Hamilton and the Persistence of Myth Feiwel & Friends

At the outset of *Marx for Cats*, Leigh Claire La Berge declares that “all history is the history of cat struggle.” Revising the medieval bestiary form to meet Marxist critique, La Berge follows feline footprints through Western economic history to reveal an animality at the heart of Marxism. She draws on a twelve-hundred-year arc spanning capitalism’s feudal prehistory, its colonialist and imperialist ages, the bourgeois revolutions that supported capitalism, and the communist revolutions that opposed it to outline how cats have long been understood as creatures of economic critique and liberatory possibility. By attending to the repeated archival appearance of lions, tigers, wildcats, and “sabo-tabbies,” La Berge argues that felines are central to how Marxists have imagined the economy, and by asking what humans and animals owe each other in a moment of ecological crisis, La Berge joins current debates about the need for and possibility of eco-socialism. In this

playful and generously illustrated radical bestiary, La Berge demonstrates that class struggle is ultimately an interspecies collaboration.

*Exploring the Northeast States Through Literature* National Geographic Books

In 1776 the U.S. owed huge sums to foreign creditors and its own citizens but, lacking the power to tax, had no means to repay them. This is the first book to tell the story of how foreign-born financial specialists—the immigrant founders Hamilton and Gallatin—solved the fiscal crisis and set the nation on a path to long-term economic prosperity.

**Angel of the Battlefield** Penguin

The life of Alexander Hamilton is certainly one of great complexity and controversy and, as a result, has been of great interest to the general public for centuries. In the past two hundred years, there have been many accounts of Hamilton’s life—mostly commenting on his political personality rather than his character, but none have touched upon the private life of the man quite like *The Intimate Life of Alexander Hamilton*. Drawn chiefly from collected original family letters and documents, some never published before this book’s initial publication in 1910, Hamilton’s grandson Allan McLane Hamilton presents a portrait of one of America’s chief founding fathers unlike any other, recounting the life of his grandfather with an unmatched insider’s eye. The author intimately discusses his grandfather’s private affairs in great detail, dispelling many rumors about Hamilton’s personal life. The book presents an astounding portrait of the man and his character, revealing a softness and charisma unknown to the public at the time of its publication. From primary sources so close to Hamilton they could very well be called heirlooms,

Hamilton's private life and personality are described with a closeness only a member of his family could possibly provide. Return to this forgotten classic, and see what one of America's most controversial historical figures was like behind closed doors in *The Intimate Life of Alexander Hamilton*.

**The Founders and Finance** Abrams  
"Time travelers Maisie and Felix meet a young Alexander Graham Bell (the inventor of the telephone). When the twins get separated from Alexander, they join the thousands of orphans in the streets of Victorian London"--

Gentleman's Progress Grosset & Dunlap  
"Knott observes that Thomas Jefferson and his followers, and, later, Andrew Jackson and his adherents, tended to view Hamilton and his principles as "un-American." While his policies generated mistrust in the South and the West, where he is still seen as the founding plutocrat, Hamilton was revered in New England and parts of the mid-Atlantic states. Hamilton's image as a champion of American nationalism caused his reputation to soar during the Civil War, at least in the North. However, in the wake of Gilded Age excesses, progressive and populist political leaders branded Hamilton as the patron saint of Wall Street, and his reputation began to disintegrate."--BOOK JACKET.

Catalogue of the Books in the Department of English Prose Fiction which Belong to the Public Library of Cincinnati Macmillan Publishing Company

When their parents divorce, twelve-year-old twins Felix and Maisie move with their mother to live in the attic of a historic Newport, Rhode Island, mansion where they discover a hidden room that carries with it an intriguing secret.  
Alexander Hamilton Zonderkidz

Now that the twins have begun to settle into their new lives at Elm Medona, they delve deeper into *The Treasure Chest* and uncover more about the Pickworth family, including the disappearance of their great-uncle Thorne and the theft of priceless family artifacts. In this adventure, *The Treasure Chest* transports Felix and Maisie to tropical St. Croix in 1772. There they meet a young man named Alexander Hamilton who is about to embark on a journey to New York. Felix and Maisie aren't sure why *The Treasure Chest* has brought them to meet Alexander, but they are determined to not let him out of their sights . . . even if that means stowing away on the very ship he is sailing off on!

**Alexander Hamilton** Simon and Schuster

Aside from the Constitution itself, there is no more important document in American politics and law than *The Federalist*—the series of essays written by Alexander Hamilton and James Madison to explain the proposed Constitution to the American people and persuade them to ratify it. Today, amid angry debate over what the Constitution means and what the framers' "original intent" was, *The Federalist* is more important than ever, offering the best insight into how the framers thought about the most troubling issues of American government and how the various clauses of the Constitution were meant to be understood. Michael Meyerson's *Liberty's Blueprint* provides a fascinating window into the fleeting, and ultimately doomed, friendship between Hamilton and Madison, as well as a much-needed introduction to understanding how the lessons of *The Federalist* are relevant for resolving contemporary constitutional issues from medical marijuana to the

war on terrorism. This book shows that, when properly read, *The Federalist* is not a "conservative" manifesto but a document that rightfully belongs to all Americans across the political spectrum.

*Famous Americans* Macmillan

An old coin in *The Treasure Chest* transports twins Felix and Maisie to the island of St. Croix in 1772, where they meet 17-year-old Alexander Hamilton, who is about to embark on a journey to New York. Simultaneous.

[The International Encyclopedia](#) Open Road Media

*Unstoppable Me*, written by New York Times bestselling author and champion surfer Bethany Hamilton with husband, Adam Dirks, tells the story of Makana the lion, who loves to surf but loses her nerve when she wipes out. When her friend encourages her to go back out again, Makana summons up the courage and discovers the success that comes from believing in yourself and never giving up. As seen in the feature film *Bethany Hamilton: Unstoppable*, this playful book will have little ones cheering for Makana and inspire them to stay strong and keep trying, no matter what challenges might come their way.

**Alexander Hamilton #2** Atlantic Publishing Company

Despite his less-than-promising beginnings as the only key Founding Father not born and raised on American soil, Hamilton was one of the best and brightest of his generation. His notoriety has rested almost entirely on his role as Secretary of the Treasury in Washington's administration, yet few

realize that Washington and Hamilton's bond was forged during the Revolutionary War. *Alexander Hamilton's Revolution* is the first book to explore Hamilton's critical role during the battle for independence. New information presents a little-known and underpublished aspect of Hamilton's life: that he was not only Washington's favorite staff officer, but also his right-hand man for most of the Revolution, serving as Chief of Staff from 1777 to early 1781. While he found this position rewarding, Hamilton continually asked Washington for a field command. Hamilton's wish was granted at the decisive battle of Yorktown, where his Infantry Battalion charged on the defensive bastion on Cornwallis's left flank. Hamilton's capture of this position, while French forces captured the adjacent position, sealed Cornwallis's fate and forced his surrender and ultimate colonial victory. The entire patriotic cause benefited immeasurably from the advice and strategies provided to Washington by his youngest staff officer, Alexander Hamilton. Now, those critical contributions are brought to light in *Hamilton's Revolution*.
