Catalog of Copyright Entries. New Series  
 CRC Concise Encyclopedia of Mathematics  
 The Mathematical Gazette  
 Numerical Geometry, Grid Generation and Scientific Computing  
 Digest of Courses of Study for Secondary Schools of Indiana  
 Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen and Sample Examination Papers  
 Regulations Governing the Admission of Candidates Into the Naval Academy  
 The National Union Catalog, Pre-1956 Imprints  
 Bulletin ...  
 Solid Mensuration. With Proofs ... Second Edition  
 Solid Mensuration. [With Answers.].  
 Educational Publications  
 Bulletin  
 Regulations Governing the Admission of Candidates Into the Naval Academy  
 Mathematical Book Review Index, 1800-1940  
 High School Mathematics  
 Solid Mensuration. With Proofs ... Second Edition. (Fifth Printing.).  
 American Book Publishing Record Cumulative, 1876-1949  
 Catalog of Copyright Entries. Part 1. [B] Group 2. Pamphlets, Etc. New Series  
 Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen  
 National Bureau of Standards Miscellaneous Publication  
 Catalog of Course of Instruction at the United States Naval Academy  
 Catalog of Course of Instruction  
 Solid Mensuration  
 University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles  
 Catalog of Copyright Entries. Third Series  
 Catalog of Books and Reports in the Bureau of Mines Technical Library, Pittsburgh, Pa  
 Bulletin  
 Spatial Gems, Volume 1  
 Catalogue of Copyright Entries  
 Dimensional Metrology, Subject-classified with Abstracts Through 1964  
 Miscellaneous Publication - National Bureau of Standards  
 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971  
 Bureau of Marine Inspection and Navigation Bulletin  
 Books and Pamphlets, Including Serials and Contributions to Periodicals  
 National Union Catalog  
 Official Gazette  
 NBS Special Publication  
 Catalog of Books and Reports in the Bureau of Mines Technical Library, Pittsburgh, Pa  
 The American Mathematical Monthly

### STOKES RILEY

**Catalog of Copyright Entries. New Series** Copyright Office, Library of Congress

Includes section "Recent publications."

[CRC Concise Encyclopedia of Mathematics](#) Springer Nature

This work provides access to approximately 5,000 reviews of English-language mathematical books published in North America. Included are works on mathematics, science, philosophy, and education appearing in the periodical literature from 1800 to 1940. It covers materials not reviewed in Book Review Index and Book Review Digest. It predates Mathematical Reviews, which first appeared in 1940. Books on all aspects of mathematics are included. There are subject, reviewer, and title indexes.

**The Mathematical Gazette** CRC Press

Upon publication, the first edition of the CRC Concise Encyclopedia of Mathematics received overwhelming accolades for its unparalleled scope, readability, and utility. It soon took its place among the top selling books in the history of Chapman & Hall/CRC, and its popularity continues unabated.

Yet also unabated has been the d

[Numerical Geometry, Grid Generation and Scientific Computing](#) Morgan & Claypool

The focus of these conference proceedings is on research, development, and applications in the fields of numerical geometry, scientific computing and numerical simulation, particularly in mesh generation and related problems. In addition, this year's special focus is on Delaunay triangulations and their applications, celebrating the 130th birthday of Boris Delaunay. In terms of content, the book strikes a balance between engineering algorithms and mathematical foundations. It presents an overview of recent advances in numerical geometry, grid generation and adaptation in terms of mathematical foundations, algorithm and software development and applications. The specific topics covered include: quasi-conformal and quasi-isometric mappings, hyperelastic deformations, multidimensional generalisations of the equidistribution principle, discrete differential geometry, spatial and metric encodings, Voronoi-Delaunay theory for tilings and partitions, duality in mathematical programming and numerical geometry, mesh-based optimisation and optimal control methods. Further aspects examined include iterative solvers for variational problems and algorithm and software development. The applications of the methods discussed are multidisciplinary and include problems from mathematics, physics, biology, chemistry, material science, and engineering.

[Digest of Courses of Study for Secondary Schools of Indiana](#) Taylor & Francis

Includes entries for maps and atlases.

**Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen and Sample Examination**

**Papers** Copyright Office, Library of Congress

This book presents fundamental new techniques for understanding and processing geospatial data. These “spatial gems” articulate and highlight insightful ideas that often remain unstated in graduate textbooks, and which are not the focus of research papers. They teach us how to do something useful with spatial data, in the form of algorithms, code, or equations. Unlike a research paper, Spatial Gems, Volume 1 does not focus on “Look what we have done!” but rather shows “Look what YOU can do!” With contributions from researchers at the forefront of the field, this volume occupies a unique position in the literature by serving graduate students, professional researchers, professors, and computer developers in the field alike.
