"Perfect for football fans of all stripes, this dual-focus portrait celebrates the winning power of strong bonds between coach and player."

—Publishers Weekly
A rare, behind the scenes? look at the New Orleans Saints over more than 14 seasons In 2006, Sean Payton arrived in New Orleans as a relatively unknown first time NFL head coach. His task was daunting: resurrect a Saints team that had just finished 3-13 and had won only one playoff

game in the previous four decades. Meanwhile, the city was undergoing its own staggering rebuild following the devastation of Hurricane Katrina five months earlier. Payton knew that to turn around the Saints' fortunes, he needed to turn around their dreadful quarterback legacy. The Saints targeted a San Diego Chargers castoff they hoped would become the new face of their franchise: Drew Brees. Every team in the NFL had passed on Brees at least once because of his surgically repaired right shoulder or his lack of prototypical size. But for the Saints, Brees was worth the risk. Together, these two underdogs rolled up their sleeves and got to work, helping rebuild the city as they transformed the franchise from laughingstock to Super Bowl Champions. What they have done since, including building the most productive offense the NFL has ever seen and setting multiple passing and scoring records, has only deepened their legacy in New Orleans and throughout the league. Based on more than 14

years of firsthand reporting and dozens of interviews with players, coaches, and executives,?Payton and Brees is the definitive account of how Sean Payton and Drew Brees transformed a team, a city, and the game of football.

From the time she was a girl growing up in the shadow of Lexington Park in Saint Paul, Minnesota, Toni Stone knew she wanted to play professional baseball. There was only one problem--every card was stacked against her. Curveball tells the

inspiring story of baseball's "female Jackie Robinson," a woman whose ambition, courage, and raw talent propelled her from ragtag teams barnstorming across the Dakotas to playing in front of large crowds at Yankee Stadium. Toni Stone was the first woman to play professional baseball on men's teams. After Robinson integrated the major leagues and other black players slowly began to follow, Stone seized an unprecedented opportunity to play professional baseball in the Negro League. She replaced Hank Aaron as the star infielder for the Indianapolis Clowns and later signed with the legendary Kansas City Monarchs. Playing alongside some of the premier athletes of all time including Ernie Banks, Willie Mays, Buck O'Neil, and Satchel Paige, Toni let her talent speak for itself. Curveball chronicles Toni Stone's remarkable career facing down not only fastballs, but jeers, sabotage, and Jim Crow America as well. Her story reveals how far passion, pride, and determination can take one person in pursuit of a dream.

The 1954 Cleveland Indians were one of the most remarkable baseball teams of all time. Their record for most wins (111) fell only when the baseball schedule expanded, and their winning percentage, an astounding .721, is still unsurpassed in the American League. Though the season ended with a heartbreaking loss to the New York Giants in the World Series, the 1954 team remains a favorite among Cleveland fans

and beyond. Pitching to the Pennant commemorates the '54 Indians with a biographical sketch of the entire team, from the "Big Three" pitching staff (Mike Garcia and future Hall of Famers Bob Lemon and Early Wynn), through notable players such as Bobby Avila, Bob Feller, Larry Doby, and Al Rosen, to manager Al Lopez, his coaches, and the Indians' broadcast team. There are also stories about Cleveland Stadium and the 1954 All-Star Game (which the team hosted), as well as a season timeline and a firsthand account of Game One of the World Series at the Polo Grounds. Pitching to the Pennant features the superb writing and research of members of the Society for American Baseball Research (SABR), making this book a must for all Indians fans and baseball aficionados.

A biography on the self-made tycoon who rose from car salesman to owner of the New Orleans Saints, and grappled with tragedies along the way. From salesman to dealership owner, New Orleans-born billionaire Tom Benson started in business with cars, which paved the way for his other profitable enterprises that include banks, real estate, and the New Orleans Saints. Kathy Finn's biography of this self-made tycoon reveals some of the mystery behind the legend. Beginning with his working-class childhood in New Orleans, Finn delves into the contention surrounding Benson, from the controversial near-relocation of the Saints to the dramatic legal battle with his daughter. Including interviews with friends, family, and acquaintances, this extensive compilation sheds light on the man behind the empire—his

successes and his tragedies.

In the 1800s, New Orleans' local economy evolved from rural-agrarian into urban-industrial. With this transformation came newfound leisure time, which birthed the concept of organized sport. Though first considered a game for children, baseball became New Orleans' most popular pastime, and by 1859, numerous baseball clubs had been established in the city. This book traces the development of baseball in New Orleans from its earliest recorded games in 1859 through the end of the 19th century, with a particular focus on the New Orleans Pelicans.

An introduction to the intriguing world of insects, from bullet ants to butterflies. Designed as an introduction to the intriguing world of insect biology, this book examines familiar entomological topics in nontraditional ways. Author David B. Rivers gives important concepts relatable context through a pop culture lens, and he covers subjects that are not typical for entomology textbooks, including the impact of insects on the human condition, the sex lives of insects, why insects are phat but not fat, forensic entomology, and the threats that some insects pose to humanity. Each chapter presents clear and concise key concepts, chapter reviews, review questions following Bloom's taxonomy of learning, web links to videos and other resources, and breakout boxes (called Fly Spots) that capture student interest with unique and entertaining facts related to

entomology. Focusing on both traditional and cutting-edge aspects of insect biology and packed with extensive learning resources, *Insects* covers a wide range of topics suitable for life science majors, as well as non-science students, including:

- the positive and negative influences of insects on everyday human life
- insect abundance
- insect classification (here presented in the context of social media)
- insect feeding, communication, defense, and sex
- how insects are responding to climate change
- forensic entomology
- how insects can be used as weapons of war
- how insects relate to national security
- why insects have wings
- how to read pesticide labels

Be like the farmers and sow for a change in your life circumstances. In due season you will reap your harvest, its time to grow in GRACE, you have been in kindergarten for too many years. God has blessed you to care for children but yet you are still acting as a child when it comes to honoring GOD. Grow up and honor GOD! Give and it shall be given

unto you, good measure press down, shaken together and running over. Stop! Stop looking at your pastor as getting your money its a seed that you sow to honor GOD. It didnt matter much where you sow your money when you didnt know any better. Youve tried everything and anything that came with a convincing line telling you to sow your money into this are that and you will win more. The instruction didnt come with a definite fact that you are going to win; it guarantees a chance. Thats man traditional way of sowing and believing. Gods way for sowing is throughout the Bible. GODs promises are: Trust in the Lord with all your heart and lean not on your understanding, God will direct your path. With a path like this any person seeking for new direction cant go wrong, with trusting GOD. Get the rope from around your neck; during slavery days, people didnt have a choice when the rope was place around their neck. They were tied down like cattle, bound and sail to sea, for some; they hung from a tree. Today, you have a choice. Farmers believe in the process of a seed sown. A farmer can

have only one seed; plant the seed and simultaneously have faith that the one seed will reproduce after its own kind. We should have faith like a farmer. If we can just believe that seeds reproduce after its own kind, and believe as the farmer believes; our circumstances will change while going through the process. Are you planting seeds?

COVID-19 and a World of Ad Hoc Geographies Av2 In July of 1859, seventy-five young New Orleanians came together to form the seven teams that comprised the Louisiana Base Ball Club. They played their games in the fields of the de la Chaise estate on the outskirts of New Orleans near present-day Louisiana Avenue. As America's population grew through immigration, so did the popularity of what the largest newspaper in New Orleans, the *Daily Picayune*, called in November of 1860 "the National Game." Baseball quickly replaced cricket as the city's most popular

participant sport. In 1887, local businessmen and promoters secured a minor league franchise for the city of New Orleans in the newly formed Southern League, beginning the city's 73-year love affair with the New Orleans Pelicans. From Shoeless Joe Jackson, to Hall of Famers Dazzy Vance, Joe Sewell, Bob Lemon, and Earl Weaver, to today's stars such as Jeff Cirillo and Lance Berkman, the road to the majors brought many notable players through New Orleans. From these early beginnings to the present-day New Orleans Zephyrs of the AAA Pacific Coast League, local fans have continued the tradition of baseball in New Orleans. Early Baseball in New Orleans McFarland Ron Gawthorp is a semi-retired author who now lives in the Alleghany Highlands of Virginia. A veteran writer of some

renown in community newspapers early in his life, he has returned to writing after working in the oilfields. His first novel, *Richer Than The Rockefellers*, reflected life in the oilfields of Illinois, his native state. *Glimpses of Glory* is his first published non-fiction work. In it he has tediously reconstructed the forgotten career of a professional baseballer from the roaring twenties through the depression. Baseball was a lot different when it started than it is today. These men were the pioneers of the sport. I think it important to remember how they lived, the author says. They worked hard, played hard and gave the game the grit it needed to survive. I especially hope young readers will take note of the way grew. Gawthorp says that over the years he has stumbled into a lot of stories he was unable to publish. Some are book worthy and

some are still only short stories, fiction and nonfiction, but I am still looking to put them on the public plate. I am being much assisted by technological advances in the publishing field. The Good Lord willing and the electric stays on the grid, I've got enough to keep me busy. The author is an avid history buff and loves visiting historic locations, research and learning. He lived 22 years in West Virginia before retiring just over the mountain to Millboro, VA.
